Garden Scene Border Planting

THE story of the human family began in a garden. Gardens are suggestive of the Creator's ideal of human happiness. Ancient civilization wrote much of its history in gardens. The Hanging Gardens typified Babylon at the zenith of her culture and power. The old Roman villa was beautiful; but its garden setting gave it the final touch of unfading charm for which it is still remembered, making it the pattern for all later civilizations.

Large numbers of wealthy Americans purchase ancient estates in Europe because the garden which surrounds the mansion is the product of generations of devotion and cultivation. The building may be copied in a year, but the trees and shrubs of a garden require many seasons to mature.

Beds and banks of flowers are a great heart-balm, however, while the rugged shrubs and trees are growing up. In a single season a garden may be made indeed a thing of beauty and of joy. The very atmosphere of a home is dignified, elevated, and refined by the family interest in and contact with flowers grown under the personal care of the household.

WHY HAVE A GARDEN?

An old gentleman who loved his garden used to say as he watched his vegetables grow, "The most beautiful flower is the cabbage." How better could he have expressed the joy he had in bringing to his table vegetables grown in his own garden, providing the family with fresh, tempting, wholesome food?

Men and women who enjoy being outdoors derive boundless pleasure and benefit from the exercise of tilling their own gardens. These amateurs have the added satisfaction of knowing that they are accomplishing something worth while. Our immigrant population has also made most picturesque gardens out of waste lands along the highways, by their intensive methods showing Americans what wonders can be accomplished even on small plots of ground.

The example of British women of birth who having adopted gardening as a profession has encouraged American women to look upon gardening as both a vocation and an avocation, something that may be easily elevated to the dignity of a profession. It is also genuinely encouraging that the press looks with favor upon these practical interests to which so much wholesome sentiment attaches and from which such valuable returns are received.

A Selection of the Finer Things in Flower Seeds

INCLUDING SEEDS OF RARE AND BEAUTIFUL NOVELTIES AND SPECIALTIES

The varieties offered below are most carefully selected and represent the best in their class. If the seed is started out-doors it must not be planted until all danger from frost is past. If started in-doors early in the season (February or March) some of them may be had in bloom as early as June. All of them will bloom this year, although the perennials will give a better display the second year. Cultural directions will be found on every package.

ANTIRRHINUM OR SNAPDRAGON

For gorgeous coloring, few flowers can match these snapdragons. The tall and dwarf sorts should be freely mixed in flower beds and borders, where they produce a brilliant effect from Summer until frost.

87 BONNY LASS

Flowers a very pretty rose pink with white throat, height 1½ feet. Award of merit R.H.S. of England, 1920. Price per packet25 cts.

88 GOLDEN MONARCH

Forming shapely pyramidal plants with handsome erect spikes of very large flowers, color rich golden yellow; height 1½ feet. The finest yellow. Price per packet.....25 cts.

89 COPPER KING

Flowers rich blood crimson with fiery red lip, very showy and attractive; height 3 feet. Price per packet.....35 cts.

90 VICTORY

The largest-flowered-snapdragon of the semi-dwarf section; color rich terra-cotta and orange with lip shaded gold, and having a white throat, very striking. Price per packet.....25 cts.

91 APPLE BLOSSOM

Semi-dwarf. Delicate light rose with white throat; very attractive. Price per packet25 cts.

92 APRICOT QUEEN

Tall. Beautiful salmon rose, with light orange lip. Very striking when massed. Price per packet 25 cts. 5 packets for \$1.00

93 BRILLIANCY

Tall. Dark velvety crimson with white throat. Price per packet25 cts.

94 MORNING GLOW

Semi-dwarf. Bold spikes of a glowing terra-cotta orange. Price per packet25 cts.

95 PURITY

Semi-dwarf. Plants of good compact habit covered with flowers of the purest glistening white. Price per packet.....25 cts.

96 PRINCESS PATRICIA

Tall. Lovely pale rose shaded chamois. One of the finest of the recent introductions. Price per packet.....25 cts.

AGERATUM

32 LITTLE BLUE STAR

Half hardy annual. Miniature bushes covered with clusters of flowers opening light blue with purple center and developing to a bright blue. Height 5 to 6 inches; very decorative for edging, bedding or pots. Price per packet.....25 cts.

AQUILEGIA (Colombine)

132 EXTRA SELECTED HYBRIDS

Seed saved from broad-petalled, long-spurred flowers. A grand strain containing a great variety of colors, from purest white bluish, pink and rose to scarlet; from pale and dark blues to rich yellow. Will give great satisfaction.

Price per packet 25 cts.

PLEASE ORDER SEEDS BY THE NUMBER ONLY

ASTERS

AMERICAN BEAUTY New Early Flowering

Height 2 to 3 feet; commences blooming about August first and continuing from then on until frost. The flowers are very beautifully formed and of extra large size, 4 to 5 inches in diameter. They are borne on stout stems which are 18 to 20 inches long, making them excellent for cutting. This is without doubt one of the finest Asters ever developed.

- 195 Carmine—rose.
- 196 Royal Purple.
- 197 September Pink.
- 198 Beautiful Lavender.
- 199 All colors mixed.

Price per packet of any
and all varieties 25c. Col-
lection of 5 for one dollar.

473 Candytuft, "Brilliant Gem," a remarkably effective variety with flowers of a brilliant deep ruby rose, a beautiful plant for flower beds and borders. Height 1 foot. Annual. Per packet.....25 cts.

509 Carnation, New Giant American Perpetual Flowering. A grand new strain. The flowers which are large and of fine form and attractive colors, are borne on long stems. Decorative throughout the summer. Will bloom the first year from seed if started indoors early in the season. Hardy—perennial. Height 2 feet. Seed very scarce.

Price per packet 50 cts.

568 Centaurea Cyanus Double, "Silver Queen," a very beautiful double white cornflower which will be highly appreciated for cutting. Annual, 2 feet high. Award of merit R. H. S. of England, 1922. Price per packet.....25 cts.

643 Chrysanthemum Maximum, "Mayfield Giant," flowers of great size and fine form, snow white. Perennial; 4 feet high. Award of merit R. H. S. of England, 1920.

Price per packet 25 cts.

775 Cosmos, New Double Annual. This strain is far superior to the old fashioned Cosmos. The flowers are large, fine in form, and resemble very much the double Pyrethium. The colors are pure and very clear. The flowers last a long time after cutting. A large percentage of them come true to type.

Price per packet 35 cts.

883 Digitalis (Foxglove) "The Shirley," a magnificent new strain; it produces plants 5 to 7 feet high, with flower spikes 4 feet long, carrying enormous flowers ranging from white to dark rose, handsomely blotched and spotted crimson, maroon and chocolate. Price per packet.....35 cts.

197 Aster American Beauty September Pink

DAHLIAS

Dahlias grow from seeds very satisfactorily. Contrary to the general belief that the seeds will take a very long time to develop into flowering plants, the plants grown from seed bloom earlier and longer than the plants grown from tubers. The price per plant when grown from seed is but a small fraction of the price of a tuber. Each year we grow a great many plants from seed, and always have an abundance of flowers during a long blooming season. Among them we find such rare beauties as would match the most expensive named sorts. They are so easily grown from seed that in our opinion it would seem unwise to buy tubers, except where specific rare sorts are wanted with certainty. A package of seeds will grow enough dahlias for the average flower garden. Full cultural directions will be found on the packet.

851 Dahlia, Double Large Flowering, seeds selected from fifty of the choicest named double varieties. Price per packet 25 cts.

854 Dahlia, Double Cactus Flowering, seeds selected from the finest named sorts only. Price per packet.....50 cts.

PLEASE ORDER SEEDS BY THE NUMBER ONLY

907 Delphinium, Elliott's Magnificent Varieties Mixed. Seeds saved from the very finest exhibition varieties only. Pale and silvery blues, silvery mauves, lavenders, soft blues, brilliant blues, dark Gentian blues, royal blues, purples, etcetera, double and single, all very beautiful. Price per packet.....25 cts.

1002 Eschscholtzia (California Poppy) "Scarlet Beauty," the most brilliant colored of all the Eschscholtzias, flowers deep scarlet. Price per packet.....25 cts.

1003 Vesuvius. Rich red, passing into terra-cotta orange. A very striking color. Most effective when planted in masses with dark green background. Price for packet 15 cts.; 8 packets for \$1.00

1183 Helianthus (Sunflower) intermedius "Crimson King," a valuable cross between the large Red Gaillardia Flowered Sunflower and the small flowered Helianthus Cucumerifolius, producing plants of elegant growth, and medium sized flowers of a rich blood red color, valuable for borders and cutting, annual, 6 feet high. Price per packet.....15 cts.

1254 Hollyhock, New Double "Exquisite," a fine new strain producing very large flowers, beautifully curled and fringed, each petal being margined white and having a striking blotch; colors light and dark rose, carmine rose, violet and dark purple, perennial, 6 feet high. Price per packet.....35 cts.

"LUPINUS POLYPHYLLUS"

1482 Lupinus, New Hybrid, White Strain, of branching habit, with fine long sprays of large pure white flowers produced for a long period in succession.
Price per packet 25 cts.

"LUPINUS POLYPHYLLUS"

1484 "Elliott's Sweet Scented," a new strain of this popular hardy perennial, producing each spring tall, handsome spikes of self or by-colored flowers, varying from white to the darkest purple and including in their range pinks and fawn color, together with combinations of pale blue and white, pink and purple, rose and white, etc.

But the chief distinctive feature of these Lupins is the delicious scent which they exhale, quite a new and most pleasing feature in this genus.

907 Delphinium Elliott's Magnificent Varieties Mixed

If prevented from seeding the plants will continue to flower from May to September.

By unanimous vote the committee of the R. H. S. of England conferred on this strain an Award of Merit June 6th, 1922. Price per packet.....50 cts.

PLEASE ORDER SEEDS BY THE NUMBER ONLY

1805 Pansy Choicest Exhibition Varieties

1787 Pentstemon, New Giant Strain. A fine improved race of Pentstemon of more erect habit than the older strain and with very large flowers, ranging in colors from bright and rich reds to rose, violet, and white. Hardy perennial but needs protection during the winter north of Pennsylvania. Two feet high. Price per packet.....35 cts.

1990 Papaver nudicaule "Tangerine," a very beautiful variety of Iceland poppy with very large rich orange colored flowers, hardy perennial 1½ foot high. Price per packet.....50 cts.

1991 Papaver nudicaule "Pearls of Dawn," a most lovely new strain of Iceland poppy, producing satiny crinkled flowers of delicate shades of pink with salmon or orange glow, salmon shaded blush, orange shaded cream, rose shaded pink, etcetera. Needs protection in winter. One foot high. Price per packet 25 cts.

1940 Poppy, "New Double Queen Poppies," a lovely strain of annual poppies of the Shirley type, but flowers double and semi-double, of the most delicate and brilliant colors, including white with salmon, pink or crimson margined, orange salmon shaded white, fiery rose scarlet shading down to white, cherry red shading to white, brilliant scarlet with white center, etc. All showing yellow anthers, 2 feet high; valuable for all purposes. Price per packet 25 cts.

1805 Pansy, Choicest Exhibition Varieties. This is the finest strain of Pansies ever offered. Flowers are of the richest colors, with beautiful markings in largest variety. Needs protection in winter. Price per packet.....35 cts.

2321 Verbena, New Giant-Flowering Hybrids. This strain surpasses all Verbenas in size of bloom, richness, and variety of colors. Height about 2 feet. Price per packet.....25 cts.

2360 Wallflower "Fire King," a very handsome new variety, with flowers of a brilliant orange, almost scarlet, perennial; colors develop best in partial shade. Price per packet.....25 cts.

ZINNIAS

2381 Apricot. A very pleasing distinct apricot-yellow. Price per packet 25 cts.

2382 Rose King. Giant double flowers of a lovely bright rose. Price per packet 25 cts.

2383 Shrimp Pink. Pure shrimp pink. Very effective. Price per packet 25 cts.

ZINNIA PICOTEE TYPE

2409 La France. A beautiful soft pink, each petal distinctly tipped with bronze. Price per packet.....25 cts.

2412 Golden Pheasant. Gold ground tipped with maroon. Price per packet 25 cts.

2414 Choice Mixed Colors, ranging from white to scarlet and including all new varieties. Price per packet 25 cts., ¼ oz. \$1.00

2424 Zinnia, Victoria. Quilled type. All colors mixed from white to scarlet, including many new shades. Price per packet.....25 cts.

ZINNIA, DAHLIA-FLOWERED TYPE

THE FINEST ZINNIAS IN CULTIVATION

2428 Exquisite. By far the most pleasing of our collection. Truly Dahlia flowered as regards form and size. Color a beautiful Tyrian Rose. Price per packet.....50 cts.

2429 Crimson Monarch. By far the largest and best of the red shades. Flowers often 8 inches in diameter. Plants very vigorous. A marvelous production of extraordinary merit. Price per packet 40 cts.

2430 Scarlet Flame. A large, beautiful, bright scarlet, with a delightful blending of orange throughout the petals. Price per packet 40 cts.

2321 Verbena New Giant Flowering Hybrids

PLEASE ORDER SEEDS BY THE NUMBER ONLY

2431 Meteor. A rich, glowing deep red and the darkest of all the red shades. Fine form, with extra large petals. Very large and producing more flowers than other reds. Price per packet....40 cts.

2432 Polar Bear. A very large pure white, the best white yet seen in Zinnias. It is of true Dahlia form. Price per packet....40 cts.

2427 Dream. A fine deep lavender, turning to purple as the flower ages. It retains its fine color until the end. A new, desirable shade in Zinnias.
Price per packet 40 cts.

2433 Oriole. We consider this the most beautiful of its class. It is an immense orange and gold bi-color, changing slightly as it ages, but at all times worthy of the beautiful bird for which it is named. Seed very scarce.
Price per packet 50 cts.

2434 Special Mixture. A well blended mixture of fine colors.
Price per packet 25 cts.

SINGLE CHINESE ASTERS

A most beautiful race of Asters. Flowers large and elegant, borne on long, graceful stems. Very fine for table decoration.

270 Dark Violet Mauve

271 General Joffre, fine bright crimson.

272 Dark Blue.

273 Deep Rose.

274 Snow White.

275 Mixed, all colors.
Price per packet of all varieties, 15 cts.

Karlsruhe Balcony Petunias and Single-Fringed Petunias in ideal combination

SEVERAL years ago, while motoring in Germany, we saw the most beautiful Petunias trained on the iron railings of the balconies of the town hall of Karlsruhe. It was the most effective balcony decoration we had ever seen. There was only one color—a lovely, rich violet-blue, a color never seen in Petunias before. The front of the balconies was a solid sheet of color. Inquiry developed that these remarkable Petunias were being grown by a local specialist. We were unable to obtain any seed until a few years later, when we got a small quantity.

We tested these Petunias most thoroughly in the greenhouse, in porch-boxes, and in open borders in the garden. In every position they were most successful and beautiful, attracting more attention and admiration than any annual we had in our grounds. We hope all of our customers will try at least one packet of these remarkable Petunias. If only one kind is tried, we suggest the violet-blue as the most distinct and striking; but all colors are effective and lovely. The plants are quite upright in their growth, much more so than other Petunias; and the lovely large flowers are produced in the greatest profusion throughout the Summer and Fall. At this writing, October 29th, these Petunias are still in full bloom. We grow several thousand plants. It should be barely covered. Firm the soil well before sowing, and after sowing sprinkle a little sand over the seed. The seed we offer is perfectly fresh, having been grown in our nursery last Summer.

- 2464 Violet-Blue. Rich color.....Pkt. 25 cts.
- 2465 Carmine. Dark rich velvety shade. Distinct and beautifulPkt. 25 cts.
- 2466 Pure WhitePkt. 25 cts.
- 2467 Rosy PinkPkt. 25 cts.

Five packets of any or all varieties for \$1.

Plants of the above may be purchased in May.

ELLIOTT'S GIANT SINGLE-FRINGED

(Giants of California)All 25 cts. per pkt.

A magnificent strain of Petunias. The flowers are very large, beautifully frilled, and of incomparable coloring.

GENERAL DESCRIPTIVE LIST OF BEST FLOWER SEEDS

*Antirrhinum Giant Flowering*

*Denotes varieties which we can specially recommend

AGROSTEMMA

- 11 *Coronaria* (Rose of Heaven; Mullein Pink). An attractive, free-flowering hardy perennial of easy culture, producing glowing crimson flowers like a single pink; silvery white foliage; blooms the first season; fine for cutting. Height 2 feet. Pkt. 10 cts.

ACROCLINIUM, EVERLASTING

This is a pretty "everlasting" annual, bearing Daisy-like flowers; height about 15 inches; if cut in the bud state and dried, the flowers can be used in Winter bouquets. Sow seed outdoors when all danger of frost is past.

- 21 Double Mixed Pkt. 10 cts.
22 Single Mixed Pkt. 5 cts.

ANCHUSA

- 71 **Italica*. Dropmore Variety. A hardy perennial of robust growth, becoming more popular every year; bears long heads of bright blue flowers. Height 4 feet.....Pkt. 25 cts.

ANTIRRHINUM (Snapdragon)

The colors are radiant with feeling, blending all the dainty fine hues with a passionate crimson that actu-

ally seems to throb with emotion. No flower-garden is complete without these; and no persuasion is necessary to induce the owner of a garden to cultivate them. They belong to the inner circle of genuine friends, tested by time and permanently loved. A very pretty effect is made by blending the tall and the semi-dwarf. Half-hardy perennials.

- 97 Giant Scarlet Pkt. 10 cts.
98 Giant White Pkt. 10 cts.
99 Giant Yellow Pkt. 10 cts.
100 Giant Pink Pkt. 10 cts.
101 Giant Mixed, $\frac{1}{4}$ oz., 25 cts. Pkt. 10 cts.
102 Large-flowering Semi-dwarf, mixed colors. $\frac{1}{4}$ oz., 25 cts. Pkt. 5 cts.

NEW SNAPDRAGONS OF GREAT BEAUTY

- 103 Feltham Beauty. New. Very large flowering variety of a beautiful deep rose-pink with pure white center.... Pkt. 35 cts.
104 **Fairy Queen*. Rich orange-salmon or terra-cotta with striking pure white throat. A very showy and beautiful variety. Tall Pkt. 15 cts.
105 *Crimson King*. Beautiful rich crimson. Very large flower trusses on stems. Two feet tall..... Pkt. 15 cts.

ANTHEMIS

- 115 *Kelwayi*. A handsome perennial, height 2 feet, bearing Daisy-like blossoms of golden yellow; excellent for cutting. Pkt. 10 cts.

AQUILEGIA (Columbine)

A most popular hardy perennial, easily grown and blooming early; good for cutting. Sow seed in the open ground in Spring; the plants like moisture and partial shade. A sowing can also be made in August and September.

- 120 *Chrysantha*. Long-spurred, large golden-yellow flowers. Height 3 feet Pkt. 10 cts.
125 *Caerulea*. The beautiful Rocky Mountain Blue Columbine. Height 3 feet Pkt. 10 cts.
130 Double Mixed Pkt. 10 cts.
132 **Extra Selected Hybrids*. Saved from broad-petaled, long spurred flowers. A grand strain containing a great variety of colors from pure white, blush, pink, and rose to scarlet; from pale and dark blues to rich yellow. Will give great satisfaction. A valuable cut-flower Pkt. 25 cts.

ACHILLEA

- 1 *Parmica*. The Pearl. A fine, tall, erect-growing perennial plant. Height 2 feet. Produces bunches of double white flowers on strong stems. Fine for cutting. Pkt. 15 cts.

132 *Aquilegia Extra Selected Hybrids*

Chrysanthemum Aster

Imperial Aster

ASTERS

Asters make long visits, coming early in the Summer and remaining till late in September; and when the frost is tardy, they linger until October. They do not wither quickly when cut to decorate the home, but with a little care may be enjoyed for days before they fade. This adds to their features of delicate tint and strong vigorous color, making them one of the familiar and indispensable flowers in almost every garden. However, there are Asters and Asters, so that one can choose from a large family.

In reading the list below you will see how varied and complete the stock is.

ASTER

230 *Chrysanthemum-flowered*. In size of flower and habit of plant this surpasses all other dwarf varieties. The flowers are chrysanthemum-shaped, 15 to 20 in a cluster. 9 to 12 inches in height. Choicest mixed colorsPkt. 10 cts.

AGERATUM

A very popular, Summer-bedding annual plant; stands hot weather well and produces large clusters of small feather-like flowers in great profusion; popular for edgings. Seed is usually started in hotbed and transplanted outdoors in May.

32 **Little Blue Star*. Miniature bushes covered with clusters of flowers opening light blue with purple center and developing to a bright blue. Height 5 to 6 inches; fine for edgings, bedding, or pots. Half-hardy annualPkt. 25 cts.

33 **Blue Perfection*. Large trusses; deep blue. Height 9 inches. Pkt. 10 cts.

34 *Mauve Beauty*. Very free-flowering, compact bushes. Large mauve flowersPkt. 10 cts.

35 *Snowball*. Large trusses with pure white flowers. Pkt. 10 cts.

IMPERIAL or Daybreak Asters

The best Aster for bedding. A comparatively new Aster of American origin. As a bedding Aster, in our climate it has no equal. The plants grow upright and bushy, producing a profusion of very durable flowers of excellent substance and lasting quality.

239 Bright Rose. Pkt. 10 cts.	243 Silvery Rose. Pkt. 10 cts.
240 Delicate Lavender Pkt. 10 cts.	244 Salmon-Pink. Pkt. 10 cts.
241 Shell-PinkPkt. 10 cts.	245 VioletPkt. 10 cts.
242 Snow-White. Pkt. 10 cts.	246 YellowPkt. 10 cts.
	247 MixedPkt. 10 cts.

KING ASTERS

These are a distinct class in themselves. They are of a branching habit. The flowers, which are borne on stiff stems about 12 inches long, are quilled somewhat and folded lengthwise; very double, the center being nicely incurved.

257 VioletPkt. 10 cts.	259 RosePkt. 10 cts.
258 LavenderPkt. 10 cts.	260 WhitePkt. 10 cts.

ASTER, Perennial

285 *New large-flowering choice mixed from finest named sorts. The most beautiful hardy Asters may be grown from this mixturePkt. 15 cts.

ALYSSUM

A most popular annual for edging or rockwork; very fragrant. Sow in open ground when frost is past.

45 **Maritimum minimum*. Improved white "Rock Alyssum," forming a dense spreading carpet of white flowers. A very valuable plant for rock-gardens, edgings, and borders. It flowers very soon after sowing. In order to have a continuous display, sowings should be made at intervals of two to three weeks. Half-hardy annual. Height 3 inchesPkt. 10 cts.

46 **Little Gem*. Dwarf, compact habit and profuse bloomer, lasting a long time in bloom. Extra good for edging beds of other flowers $\frac{1}{2}$ oz. 50 cts. Pkt. 10 cts.

47 *Maritimum*. Sweet Alyssum. Very fragrant. $\frac{1}{2}$ oz. 25 cts. Pkt. 5 cts.

48 *Saxatile compactum*. A permanent variety for beds or edging; fine for use in rock-gardens; flowers golden yellow. Pkt. 10 cts.

PLEASE ORDER SEEDS BY THE NUMBER ONLY

**Denotes varieties which we can specially recommend*

BALSAM (Lady's Slipper)

One stalk of Double Balsam is like an old-fashioned bouquet, itself,—a bunch of flowers crowded into a tall, slender vase. The variety of colors gives the aspect of various distinct flowers bound close together for adorning a room. In this variety in unity, the familiar Lady's Slipper is unique. It appears to be a requisite in the minds of so many flower-lovers that our friends need only to be reminded that we carry the seeds which give the garden this flowering beauty.

BALSAM, CAMELLIA-FLOWERED

*ELLIOTT'S IMPROVED DOUBLE PRIZE STRAIN

303 Splendid Mixed, flowers very large and fully double, of very beautiful and brilliant varied colors. Price per Packet, 15 cts.

305 White

306 Crimson

310 Mixed

Per Packet, 5 cts.

307 Salmon

308 Yellow

309 Scarlet

Elliott's Double Balsam

CALENDULA

An old-fashioned garden annual of easy culture and a continuous bloomer. Fine large flowers of rich and varied coloring. Splendid for the garden and cut-flowers. Can also be grown very successfully in pots during the winter. Sow thickly out-doors when danger of frost is past.

384 Meteor. Striking for cut bloom, fine lemon yellow with orange stripe.

Per Packet, 10 cts.

387 *Orange King Improved (new). Extra select improved variety of a beautiful rich orange.

Per packet, 10 cts.

386 Double Sulphur. Fine lemon yellow.

Per packet, 5 cts.

385 Prince of Orange. Deep orange, one of the best.

Per Packet, 10 cts.

388 All Colors Mixed. Per packet, 5 cts.

Calendula

BALSAM APPLE AND BALSAM PEAR (See Momordica)

PLEASE ORDER SEEDS BY THE NUMBER ONLY

CAMPANULA (Canterbury Bells)

These are so popular that we need hardly say much about them. Being biennials, their seed can also be sown any time from June to September for the following year's blooming. Protect the first Winter with leaves or straw. No lover of flowers should be without some Canterbury Bells in his garden, so fine is their show.

442 Calycanthema (Cup and Saucer), Rose	Pkt. 10 cts.
443 Calycanthema, Blue	Pkt. 10 cts.
444 Calycanthema, White	Pkt. 10 cts.
445 Calycanthema, Mixed	Pkt. 10 cts.
446 Medium, Single, Rose	Pkt. 5 cts.
447 Medium, Single, Blue	Pkt. 5 cts.
448 Medium, Single, White	Pkt. 5 cts.
449 Medium, Single, Mixed	Pkt. 5 cts.
450 Medium Double, Calycanthema and Single varieties	Mixed. Pkt. 10 cts.

PERENNIAL CAMPANULA

If sown early, some will bloom the first season; the tall varieties make fine cut-flower plants, while the dwarf sorts make excellent border plants. They like rich, sandy soil.

- 460 *Carpatica* (Harebell). Blue. Very free-flowering, remaining in bloom nearly all Summer; good for edging. Height 6 inches. Pkt. 10 cts.
- 461 *Carpatica alba*. Same habit as above, only white. Height 6 inches. Pkt. 10 cts.
- 462 *Persicifolia grandiflora*. One of the best; height 2 to 3 feet; large blue bells. Pkt. 15 cts.
- 463 *Persicifolia grandiflora albo*. White. Pkt. 15 cts.
- 464 *Pyramidalis*, Mixed (Chimney Bellflower). Pyramids of blue and white flowers, often reaching 6 feet. Pkt. 10 cts.

Campanula

CANDYTUFT

A most popular annual which is seen in nearly every garden. Looks best massed in beds or in thick rows in borders. Splendid for cutting. Sow in the open in April. Height 1 foot.

- 474 *Empress*. The finest white variety. Oz., 30 cts. Pkt. 5 cts.
- 475 *Crimson*. Pkt. 5 cts.
- 476 *Lilac*. Pkt. 5 cts.
- 477 *Mixed*. Oz., 25 cts. Pkt. 5 cts.
- 478 **Rose-Cardinal*. A very rich striking color; quite distinct. Pkt. 10 cts.

PERENNIAL VARIETIES

- 488 *Gibraltarica*. A very showy, large-growing variety with red and rosy-white flowers. Hardy perennial. Pkt. 10 cts.
- 489 *Sempervirens*. A lovely hardy variety completely covered with heads of white flowers in the Spring. Height 1 foot. Pkt. 15 cts.

CARNATIONS

These are sown under glass in the Spring, or can be sown outside later as soon as all danger of frost is past and the ground is warm. They are great favorites on account of their fragrance and their qualities as cut-flowers.

- 510 **Giant Marguerite*, Mixed. Extra-large flowers; very fragrant. The best for the garden. Pkt. 20 cts.

- 511 White
512 Pink
513 Scarlet
514 Yellow
Pkt. 10 cts.

- 516 *Chabaud's Early-blooming*. A celebrated strain; blooms in six months from seed. Excellent. Pkt. 25 cts.
- 517 *Hardy Border*, Mixed. Very hardy, flowering the second season. Choice seedlings. Pkt. 25 cts.

Castor-Oil Plant. See *Ricinus*.

CELOSIA

Cristata (Crested Cockscomb)

This is an annual of easy culture. Sow seeds indoors and transplant later; or they may be sown outdoors. Suitable for borders or pots.

- 534 *Glasgow Prize*. Large combs; dark crimson; foliage dark, height 1 foot. Pkt. 10 cts.
- 535 *Dwarf*, Mixed. Selected from the best combs. Height 1 foot. Pkt. 5 cts.

PLUMOSA (Plumed Cockscomb)

- 546 *Thompsonii magnifica*. Yellow. Height 3 feet. Pkt. 5 cts.
- 547 *Thompsonii magnifica*. Crimson. Height 3 feet. Pkt. 5 cts.
- 548 *Thompsonii magnifica*. Mixed. Height 3 feet. Pkt. 5 cts.
- 549 **Chinese Woolflower*. (*C. plumosa* Childsii). This is a unique type of *Celosia plumosa*, but instead of forming pyramidal panicles of bloom it forms large globular heads, like balls of wool or chenille, of a rich bright-red color. Height 2 to 3 feet; bears numerous flower-heads. Pkt. 10 cts.

AMARANTHUS

These are decorative foliage plants of great value. Being annuals, they can be sown outdoors, or started early inside and transplanted out later.

- 58 *Caudatus* (Love-Lies-Bleeding). Drooping racemes of scarlet flowers. Height 3 feet. Pkt. 5 cts.
- 59 *Tricolor* (Joseph's Coat). Foliage bronze-green, scarlet and gold. Height 2½ feet. Pkt. 5 cts.
- 60 *Cruentus* (Prince's Feather). Flowers feathery. Dark red. Pkt. 5 cts.

Denotes varieties which we can specially recommend

Centaurea

BARTONIA

333 *Aurea* (Golden Bartonia). A very showy annual, native of California. It bears a profusion of golden-yellow flowers all Summer long, measuring nearly 3 inches across. As it does best in a moist situation, plant it in masses so that the foliage will protect the soil from the hot sun, thus preventing drying out.....Pkt. 10 cts.

BELLIS (English Daisy)

A choice little perennial which, if covered during the Winter with leaves or straw, will stand the cold. Easily raised from seed. Sowings can be made from early Spring till August. Used principally for edging beds, borders, or in rockeries.

- 343 Double RosePkt. 10 cts.
- 344 Double WhitePkt. 10 cts.
- 345 Double MixedPkt. 10 cts.

CALLIOPSIS

A very free-flowering annual suitable for any position and soil, blooming all Summer long provided you remove the old flowers. Sow where the plants are intended to stay and thin out to about 8 inches.

- 393 *Drummondii* (Golden Wave). Deep golden-yellow with small brown center. Height 1 foot..Pkt. 5 cts.
- 399 *Marmorata*. A tall golden-yellow variety, marbled redPkt. 5 cts.
- 400 *Tiger Star*. Rich bronze, tigered and spotted with yellow; very peculiar; twisted petalsPkt. 5 cts.
- 401 **Tom Thumb. Beauty*. A very compact and massive bloomer, forming a perfect little bush literally covered with flowers; golden-yellow with crimson center. It grows only 7 to 8 inches tall and is a gem for borders and for pot-culturePkt. 10 cts.
- 402 *Tom Thumb. Crimson King*. The counterpart of the above with rich, dark-crimson flowers..Pkt. 10 cts.

CALCEOLARIA

422 *Elliott's Choicest Prize Varieties*. A unique plant for greenhouse, conservatory, or window decoration, producing a gorgeous display of blossoms during Spring and Summer. Colors are yellow, maroon, white, orange, primrose, etc., spotted and blotched in a very artistic manner. A strain as good as this is seldom sold in AmericaPkt. 75 cts.

CENTAUREA CYANUS (Cornflower)

The *Centaurea Cyanus* is one of the most popular annual Summer flowers. It is easily grown by sowing seed in the open ground and usually reseeds itself, coming up year after year. The *Imperialis* variety, when once grown, will always be grown; lasts a long time when cut; extra-large blooming variety. Excellent double flowering.

- 569 **Double Blue*Pkt. 10 cts.
- 570 *Double White*Pkt. 10 cts.
- 571 *Double Rose*Pkt. 10 cts.
- 573 *Double Mixed colors*....Pkt. 5 cts.

IMPERIALIS (Imperial Sweet Sultan)

The finest of all both in size and fragrance.

- 583 *White*Pkt. 10 cts.
- 584 *Rose*Pkt. 10 cts.
- 585 *Purple*Pkt. 10 cts.
- 586 *Mixed*. ½ oz., 30 cts.; Pkt. 5 cts.

VARIOUS CENTAUREAS WELL WORTH GROWING

- 596 *Americana*. A splendid, tall-growing, native variety; flowers of immense size; lilac-purplePkt. 10 cts.
 - 597 *Suaevolens*. (The Yellow Sweet Sultan). Very popularPkt. 5 cts.
 - 598 *Moschata Mixed*. (Sweet Sultan). Pkt. 5 cts.
 - 599 **Candidissima*. Sow the seed of this variety early indoors and transplant in May. This has beautiful, silver foliage, and is used as an edging...Pkt. 15 cts.
 - 600 *Gymnocarpa*. A very graceful variety with silvery gray leaves; excellent as an edging plantPkt. 10 cts.
- Chinese Lantern Plant. See *Physalis*.

Calliopsis

PLEASE ORDER SEEDS BY THE NUMBER ONLY

Annual Chrysanthemum, Mixed

**Denotes varieties which we can specially recommend*

Chrysanthemum

ANNUAL VARIETIES

These are very showy annuals comprising a great variety of colors. They are not to be mistaken for the large Japanese varieties one sees in the florists' windows, being quite different. Sow seeds outdoors and thin out seedlings to about 8 to 10 inches apart.

- | | |
|---|--------------|
| 630 Coronarium, Double White | Pkt. 5 cts. |
| 631 Coronarium, Double Yellow | Pkt. 5 cts. |
| 632 Coronarium, Double Mixed. Of great value. | Pkt. 5 cts. |
| 633 *Tricolor, double fringed improved hybrids. | Pkt. 10 cts. |
| 634 Segetum (Evening Star). Pure golden-yellow flowers. | Pkt. 10 cts. |

PERENNIAL CHRYSANTHEMUMS

- 644 *Leucanthemum maximum* (Shasta Daisy). The most free-flowering, largest-blooming variety of the Marguerite family. Pkt. 10 cts.

CLARKIA

A very pretty annual of easy culture; should be grown more extensively, as it is worthy of a place in every garden; it likes partial shade. Sow outdoors in early Spring in beds; suitable for borders in groups, useful for cutting.

- | | |
|--|--------------|
| 663 Double Pure White | Pkt. 5 cts. |
| 665 Double Queen Mary, lovely rosy carmine... | Pkt. 5 cts. |
| 666 Double Scarlet Queen. Orange scarlet. Very striking. | Pkt. 5 cts. |
| 667 *Beautiful mixture of fine new shades..... | Pkt. 10 cts. |

CINERARIA

This is one of the most brilliant, showy greenhouse plants in cultivation. If only one sowing is required, July is the best, but seed can be sown any time from May to September for a succession. When the seedlings are large enough to handle, showing the second leaf well, pot up into small pots and repot as they grow until they are finally placed in pots in which they are to flower. Best grown in a coldframe; make the final potting when bringing them into the greenhouse. Water occasionally with liquid manure when the plants develop the flower-buds; and never let them get dry. Our strains are the very best procurable.

- | | |
|---|--------------|
| 688 <i>Hybrida grandiflora</i> , Mixed | Pkt. 35 cts. |
| 689 <i>Hybrida stellata</i> , Tall. Mixed; star-shaped flowers. | Pkt. 25 cts. |

COBAEA SCANDENS (Cup-and-Saucer Vine)

A popular, very rapid-growing climber, attaining a height of from 20 to 30 feet in a season, covered with large, bell-shaped flowers. Suitable for covering arbors, walls, or trunks of trees. Start seed indoors early, say about March, and cover lightly.

- | | |
|------------------|--------------|
| 709 White | Pkt. 10 cts. |
| 710 Purple | Pkt. 10 cts. |

COLEUS

A very ornamental bedding plant with beautiful, colored foliage; can be grown in the house also. It is a greenhouse perennial but can be grown to perfection the first season from seed. Sow early indoors in a moist, warm atmosphere and transplant when the ground and weather are suitable.

- | | |
|---|--------------|
| 720 Choice fine colored mixed. Very easily grown. | Pkt. 20 cts. |
|---|--------------|
- Columbine. See *Aquilegia*.

CONVOLVULUS MAJOR (Common Morning-Glory)

Very popular, rapid-growing vine, 15 feet, covered with delicately colored flowers; will grow in any situation; of easy cultivation.

- | | |
|---|--------------|
| 730 Tall, Mixed. Single flowers, all colors | Pkt. 5 cts. |
| 731 Double-flowering. All colors | Pkt. 10 cts. |
| 732 Dwarf, Mixed. These grow only 1 foot tall and make a very showy bed, remaining in bloom a long time.... | Pkt. 5 cts. |
- For other varieties of Morning-Glories see *Ipomoea*.

COREOPSIS

- 752 **Grandiflora* (Perennial *Calliopsis*). Almost without exception this plant is the best value as a cut-flower in cultivation, having fine, long stems; lasts a long time cut. A perennial, but if sown early indoors in the Spring will bloom the first year. Has large, bright-yellow flowers; the best of all. Pkt. 10 cts.

Coreopsis

COSMOS

*Denotes varieties which we can specially recommend

Cosmos, as the name suggests, belongs to the universe and has ardent lovers in every land. The plants are almost prodigal in their lavish outlay of bloom. Whether early or late, in the garden or in a vase, they are in keeping with the most delicate and cultivated taste. Wherever found, they suggest the same refinement both in color and form. The early-blooming should be supplemented with the late-flowering if the long season is to be honored throughout with the presence of these gentle little visitors.

- 912 Formosum. Brilliant blue, with white center.....Pkt. 10 cts.
- 913 Formosum coelestinum. Pale blue, with white center. Pkt. 20 cts.
- 914 Large-flowering Hybrids. Extra choice, from named single varieties; immense spikes

For Annual Varieties, see Larkspur.

DIANTHUS, OR PINKS

The Dianthus family in all its varieties is a popular garden flower. Pinks are especially of exceptional value for cutting and fragrance; they have few rivals. Seed may be sown outdoors as soon as all danger of frost is past. The biennial varieties survive the Winter with a little protection, but Plumarius is perfectly hardy.

- 934 Chinese Double. Mixed. Produces clusters of fine, double-flowers in a great variety of color.....Pkt. 5 cts.
- 935 Japanese Double, Mixed. Beautiful colors.....Pkt. 5 cts.
- 936 Japanese Double, Fireball, Dark scarlet, very double. Pkt. 10 cts.
- 937 Japanese Double, White

- 939 Japanese Single, Punctatus (Princess Pinks). Beautiful colors, with fringed edges.....Pkt. 10 cts.

HARDY GARDEN PINKS (Clove-scented)

- 949 Pheasant's Eye. Single. Fringed. Mixed.....Pkt. 5 cts.
- 950 Plumarius Double. Mixed. Double hardy pinks. Pkt. 10 cts.
- 951 Semperflorens. Perpetual Pink. Double and semi-double, mixed
- 952 Plumarius fl.-pl. Scotius. Very hardy; double; height 1 foot; very strongly perfumed. Seed very scarce.....Pkt. 30 cts.
- 953 *Single Annual. Ruffled and frilled. The gorgeously colored blossoms range from deep blood-red to salmon, pink, and white; beautifully ruffled and frilled, lending immensely to their gracefulness. The plants are bushy, 1 foot tall and flower abundantly Summer and Fall. Can not be equalled for cut-flowers. Pkt. 10 cts.

DIGITALIS (Foxglove)

A hardy perennial for planting among shrubbery and in half-shady places. Sow seed in Spring or July and August and transplant where desired; or it can be sown where the plants are to remain.

Gloxinioides. This is the finest species, bearing beautifully spotted, large flowers.

- 884 Purple
- 885 Rose
- 886 White

SUNFLOWERS

The usual old-time giant Sunflower is not the only variety, although no other can ever supplant it as it stands guard in the farthest background of the jungle side of the garden. It is tall and erect like a soldier, yet bows with the modesty of a gentle mother. Other flowers are often like people, but the Sunflower is a real personage. It is in place in the house also as a Sunflower bouquet or mingled with other flowers in jars which take long stemmed plants.

HELIANTHUS (Sunflower)

The single Sunflowers are very useful cut-flowers. Sow seed in the open ground in April or May. The Miniature varieties, are especially fine grouped in borders and for cutting.

- 1174 Miniature, Grandiflora, re-selected, flowers golden yellow, about twice the size of Stella, and of fine form and colorPkt. 5 cts.
- 1175 *Miniature, Golden Fleece, clear golden yellow, dark center cactus flowers. Very beautifulPkt. 15 cts.
- 1176 Miniature, Starlight, sulphur yellow, cactus flowers.Pkt. 10 cts.
- 1177 Miniature Apollo, very fine star shaped flowers. Golden yellowPkt. 10 cts.
- 1178 *Miniature Dazzler (new). Rich chestnut tipped with orange, bold and strikingPkt. 15 cts.
- 1179 *Miniature, Excelsior Hybrids (new). Clear yellow with zones of blood-red, purple and brownPkt. 10 cts.
- 1180 Single Cut-and-Come-Again, Mixed. Miniature Sunflowers in shades of yellow with black eyesPkt. 5 cts.
- 1181 Double Cut-and-Come-Again. Flowers yellow; double and semi-doublePkt. 5 cts.

GYPSOPHILA (Baby's Breath)

A popular, free-growing plant with very graceful, delicate flowers and foliage; used for mixing with other cut-flowers to give a soft effect.

ANNUAL VARIETIES

- 1137 Elegans grandiflora alba. Large; white.Pkt. 5 cts.
- 1138 Elegans grandiflora, Rose. Soft pink.Pkt. 5 cts.
- 1139 Elegans grandiflora, Carmine.Pkt. 5 cts.

PERENNIAL VARIETIES

- 1149 Paniculata. White flowers; fine for bouquetsPkt. 10 cts.
- 1150 Paniculata fl.-pl. Double form of the abovePkt. 25 cts.

GODETIA

An attractive, hardy annual; does well in the shade; forms a nice bush about 1 foot tall, with flowers of very bright colors. Sow in the open when danger of frost is past.

- 1113 Crimson Glow. Beautiful dark-crimson.Pkt. 5 cts.
- 1114 Duchess of Albany. Pure white.Pkt. 5 cts.
- 1115 Rosamond. Shell-pink.....Pkt. 5 cts.
- 1116 Mixed. All colors 1/4 oz., 20 cts.Pkt. 5 cts.

HELICHRYSUM (Straw Flower)

A very popular annual flower on account of its everlasting properties. Flowers intended for drying should be cut when partly open and suspended with the heads down. The plants should be not less than 1 foot apart to allow them to develop properly.

- 1198 SalmonPkt. 5 cts.
- 1199 ScarletPkt. 5 cts.
- 1200 VioletPkt. 5 cts.
- 1201 WhitePkt. 5 cts.
- 1202 CrimsonPkt. 5 cts.
- 1203 RosePkt. 5 cts.
- 1204 All colors mixedPkt. 5 cts.

HELIOTROPE

An old-fashioned, half-hardy perennial which is very popular as a Summer bedding plant; it can be grown in a greenhouse also, giving the house a delightful perfume. Sow seed early indoors; by doing so you will have good plants for Summer blooming.

- 1214 *Giant-flowering, Mixed. Very robust growth and fine large heads of flowers; the best.....Pkt. 10 cts.

HESPERIS MATRONALIS (Sweet Rocket)

A fine old-fashioned garden plant, attaining a height of 3 feet; very free-blooming, giving large sprays of fragrant blossoms. The plants when through blooming should be taken up and transplanted into fresh soil; by doing this you will get far better results. Sow seed in Spring.

- 1224 PurplePkt. 5 cts.
- 1225 WhitePkt. 5 cts.

HEUCHERA

- 1235 Sanguinea. A very fine perennial plant, growing about 1 foot tall, with erect spikes of bright crimson flowers. A fine thing for cuttingPkt. 15 cts.

HONESTY (Lunaria biennis)

- 1245 A hardy biennial, much admired for its silver, oval-shaped seed pouches. Seed should be sown in June for the following year's bloomingPkt. 10 cts.

Morning Glories

IPOMOEA (Moonflower, Morning-Glory)

Climbers of very rapid growth, used for covering old tree stumps, trellises and arbors.

- 1321 *Bona Nox* (Evening Glory). Beautiful, large, rosy lilac flowers, opening in the eveningPkt. 10 cts.
- 1322 *Mexicana grandiflora alba*. The giant white Moonflower. very fragrant; opens after nightfall and remains open on cloudy daysPkt. 10 cts.
- 1323 **Rubra caerulea* (Heavenly blue). The special charm of this bloom is its ethereal blue. Only a few flowers seem to be able to catch the color of the sky and make it their own. Other shades are frequent, but this is one of the rare tints that artists attempt to reproduce, succeeding only with difficulty. A very effective and rapid climber.....Pkt. 10 cts.
- 1324 *Setosa* (Brazilian Morning-Glory). A very quick, robust-growing variety, covered with clusters of rose-colored flowers.Pkt. 10 cts.
- 1325 *Quamoclit hybrida*. (Cardinal climber). This is a hybrid that combines the virtues of its two ancestral lines. The vine grows so rapidly and yet is so rugged that it is not easily broken. The flowers form in clusters of a brilliant cardinal which suggests the name they bearPkt. 15 cts.

IMPERIAL JAPANESE MORNING-GLORIES

- 1335 *Mixed. These are, beyond all doubt, the finest of all the Morning-Glories. They are easily grown and in beautiful colors and size of flowers have no equal. Oz., 35 cts. Pkt. 10 cts.

HOLLYHOCK

This is one of the most popular hardy plants in cultivation; gives an effect to a garden that no other plant does. It is, without exception, the best plant for grouping among shrubbery or furnishing a background for other plants in a border. Seed sown in the Spring will give excellent, strong plants for blooming the following year. Requires protection, such as covering with leaves or straw the first Winter. We offer the very best strain procurable, which is, without doubt, Chater's.

- 1255 Double, WhitePkt. 10 cts.
- 1256 Double, RosePkt. 10 cts.
- 1257 Double, CrimsonPkt. 10 cts.
- 1258 Double, ScarletPkt. 10 cts.
- 1259 Double, YellowPkt. 10 cts.
- 1260 Double, MaroonPkt. 10 cts.
- 1263 Newport PinkPkt. 10 cts.
- 1264 Double, Mixed. Extra choicePkt. 10 cts.
- 1265 Single, Mixed. Extra choicePkt. 5 cts.
- 1266 Single, Allegheny, Mixed. Petals beautifully laced and fringed; of very robust growth and extra-large flowers.Pkt. 10 cts.

BALLOON VINE

- 205 A quick-growing, annual climber; likes light soils. Flowers are white; seed-vessels similar to small balloons; pretty foliage.Pkt. 5 cts.

CANARY-BIRD VINE (*Tropaeolum canariense*)

- 432 A very pretty annual climber, with canary-yellow blossoms; very popularPkt. 10 cts.

CYPRESS VINE (*Ipomoea Quamoclit*)

This is a very popular annual climber, attaining a height of about 15 feet.

- 842 Mixed ColorsPkt. 5 cts.

Hollyhock Single

PLEASE ORDER SEEDS BY THE NUMBER ONLY

HOLLYHOCK

1270 Annual Everblooming. This is a most welcome addition to the garden, for the old favorite Hollyhock only blooms the second season from seed. The plants are often Winter-killed and therefore have a limited cultivation. Hollyhocks may now be enjoyed by everybody, as our annual variety blooms the first season from seed. Plants from early sowings may be set out in May and will bloom in July. Those sown in the open ground will bloom in August. In either case, they bloom profusely until frost. The plants are of vigorous growth and branching habit. The center stalks grow from 8 to 10 feet tall if not pinched. It may be kept at any desired height by pinching; and

when pinched when 3 to 4 feet tall, the side branches will develop, thus forming a bush. The flowers are of great variety, both in type and coloring. Some are double, some semi-double, others single and fringed. Their colors range from the deepest maroon to the daintiest pink and pure white, while some have a charming combination of colors. We offer this variety only in mixed colors. Pkt. 10 cts.

*Marigold
Double African*

LARKSPUR

(Annual Delphinium)

These are as attractive to the professional as to the amateur. Whether they are planted in great masses like wild flowers, in orderly rows, or on border lines, the effect is still captivating. The old-fashioned garden, which has only a small assignment for flowers or large, well-planned beds with modern arrangements, alike need Larkspur, one of the most desirable of garden annuals, to add the finishing touch.

A very popular annual, ornamental and of graceful habit. Has a very fine, fern-like foliage; the flower-spikes are tall and erect, on good, strong stems, fine for cutting. Makes a nice bed or is very effective dotted in clumps, through a border or in lines. Seed sown toward the end of April will produce plants that will bloom from July till frost.

Tall Branching. This is the best strain of Annual Larkspurs in cultivation.

1385 WhitePkt. 10 cts.	1388 VioletPkt. 10 cts.
1386 Brick-redPkt. 10 cts.	1389 MixedPkt. 10 cts.
1387 RosePkt. 10 cts.	

LYCHNIS

1458 Chalcidonica. A fine, hardy perennial for massing in beds or borders, growing 2 feet tall; very floriferous; bright scarlet flowersPkt. 10 cts.

1459 Haageana Hybrids, Mixed. Bears flowers in succession until frost, colors ranging from white to rich scarlet. Grown as an annualPkt. 15 cts.

MARIGOLD

It is important to have many permanent flowers that will beautify the garden when the transients have faded and gone. The Marigold is not only beautiful in its formation and rich gold color; but it remains like a true family friend long after others have departed. Yellow is a frequent color in our gardens, but there is no such rich golden orange as the Marigold displays. Its formation is distinct and its place in one's admiration is unique. It is both antique and modern, belonging to each successive season.

AFRICAN VARIETIES

1502 *African Orange, Prize Strain, very large and perfect. Award of merit R. H. S. of EnglandPkt. 25 cts.
1503 Orange Prince. Tall; rich orangePkt. 10 cts.

1471 WhitePkt.	5 cts.		

PERENNIAL VARIETIES

These are worthy of a place in your hardy garden; grow rather taller than the annual varieties.

1483 Polyphyllus, Mixed	Pkt. 10 cts.
-------------------------------	--------------

MYOSOTIS (Forget-me-not)

This is an old-fashioned, very popular little flower, blooming in the Spring. It is very suitable for massing in beds or for edging. Seed may be sown any time from Spring to midsummer and must be protected during the Winter months.

1625 Alpestris, Indigo-Blue. The best dark-blue variety.	Pkt. 10 cts.
1626 Alpestris robusta grandiflora. A strong-growing variety of good clear light-blue	Pkt. 10 cts.
1627 Alpestris, Victoria. A great favorite of compact growth; lovely, clear azure-blue	Pkt. 10 cts.
1628 Palustris. The True Forget-me-not. Likes a damp place and is of strong, sturdy growth; clear blue flowers.	Pkt. 15 cts.

NIGELLA (Love-in-a-Mist)

A compact-growing annual, with very finely cut foliage and peculiarly formed flowers. Sow seed in the open in May and thin out to about 6 inches apart.

1721 Nigella Damascena, blue	Pkt. 5 cts.
1722 *Nigella Miss Jekyll. True bright Corn-flower blue, a color seldom seen in annuals. One of the most lovely of all the newer introductions	Pkt. 10 cts.
1723 Miss Jekyll, white	Pkt. 10 cts.

MIGNONETTE (Reseda odorata)

Flowers attract us by their beauty and fragrance. Some have one of these charms; others have both. Mignonette has this double hold upon us. Its delicate perfume makes it welcome and loved in every garden. Its beauty is secondary; but it does not lack even this imperative requirement. The fact that it may be grown in pots and thus brought into the home gives it additional worth.

1558 *Machet Orange Queen, monstrous spikes of a beautiful orange-red, true machet habit, the finest of all...	Pkt. 15 cts.
1559 Reseda odorata grandiflora. The old variety; small-spiked but the sweetest smelling	½ oz., 15 cts. Pkt. 5 cts.
1560 Defiance. One of the best, making huge, erect spikes; very fragrant	Pkt. 10 cts.
1561 Machet. (Dwarf). Pyramidal growth; very sweet and an abundant bloomer	Pkt. 10 cts.
1562 Goliath. A very robust but dwarf-growing variety; producing fine, erect spikes of very bright color	Pkt. 10 cts.
1563 White Goliath. The double white-flowering counterpart of the variety offered above	Pkt. 10 cts.

*Nigella
Miss Jekyll*

1823 Pure WhitePkt. 10 cts.

1831 Choice MixedPkt. 10 cts.

PHLOX DRUMMONDII GRANDIFLORA

One of the most popular annuals on account of its easy cultivation and very showy, brilliant-colored flowers; grows 1 foot tall. Seed can be sown in the open ground any time after the middle of May. The plants thrive better by being transplanted from where they were originally sown. When the young plants are about 6 inches tall, it is a good plan to pinch them so as to make them branch, thus producing a far better show of bloom.

*LARGE-FLOWERING VARIETIES

SINGLE AND DOUBLE ANNUAL POPPIES

POPPIES

When one sees Poppies in bloom he thinks first of "lavender and old lace" and then of daintily painted Dresden China. The flower has a delicacy or fibre and appearance that suggests the finer, higher, and more gracious things of life. If the effect of lovely blossoms is to recall us to thoughts of worthier things, then Poppies must be ranked high, since their texture and tints are superb.

SINGLE ANNUAL VARIETIES

- 1944 *Shirley Poppies. Improved extra selected stock. Charming mixture of 18 colors, including Apricot and Salmon pink. Very select strain. Kept very carefully and constantly selectedPkt. 10 cts.
- 1941 Admiral. A fine, large, pure white, with a bright scarlet band around the top; very attractivePkt. 5 cts.
- 1942 Danebrog. A fine, large, brilliant scarlet, with a white spot on each petal forming a white crossPkt. 5 cts.
- 1943 Miss Sherwood. Beautiful, satiny white, shading to rose.Pkt. 10 cts.
- 1945 The Bride. A fine, large, pure whitePkt. 5 cts.
- 1946 Tulip Poppy (*Papaver glaucum*). Like a scarlet tulip; magnificentPkt. 5 cts.
- 1947 *Virginian. Large, fringed flowers of pure white; edged with pink; beautifulPkt. 10 cts.
- 1948 Mixed. A grand mixture of Annual Poppies..Pkt. 5 cts.
Oz. 25 cts.

DOUBLE ANNUAL VARIETIES

- 1971 Carnation-flowered, Mixed. A fine mixture of Double-fringed PoppiesPkt. 5 cts.
- 1981 Peony-flowered, Mixed. Large, double, globe-shaped flowers in a great variety of colorsPkt. 5 cts.

PERENNIAL POPPIES

These should be sown in early Spring outdoors. The Iceland varieties, being perennial, will bloom the first year, the Oriental, when they start new growth in the Fall, should be transplanted to their permanent positions. As they die down during the hot weather, they should be marked, so as to avoid disturbing them during the Summer.

ICELAND POPPIES

- 1988 *Double White, very beautiful.....Pkt. 25 cts.
- 1992 Orange-scarletPkt. 10 cts.
- 1993 YellowPkt. 10 cts.
- 1994 New Hybrids, MixedPkt. 10 cts.

GIANT ORIENTAL POPPIES

These often vary in color from seed. To get them perfectly true it is best to buy plants, of which we offer a large collection.

- 2000 Scarlet. (True)Pkt. 15 cts.
- 2001 Salmon-colorPkt. 15 cts.

GIANT SPENCER SWEET PEAS

Many flowers of exquisite beauty require exquisite care, both in planting and cultivating. The ever popular Sweet Peas are a notable exception. Their highest development came in the historic English garden of the Earl and Countess Spencer, whence came the name Countess Spencer. From this line have descended, or ascended, the noted Giant Spencer Sweet Peas, admired and loved in many lands.

No flowers brought into a room transform it more quickly than a bowl of freshly-cut Sweet Peas. They are radiant in their combined delicacy and beauty, with their striking variety of brilliant and pale colors.

One ounce will sow about 35 feet in a single line.

2070 *PRIZE MIXTURE OF SPENCER SWEET PEAS

This beautiful mixture contains 75 varieties of Spencers which are representative of all the hundreds of varieties in existence. It includes all the best standard varieties and all the latest novelties.

Per oz., 25 cts.; pkt., 10 cts.; ¼ lb., 90 cts.; 1 lb., \$3.25.

EXTRA FINE VARIETIES

- 2036 *Afterglow. Violet-blue.
- 2037 America. Striped brilliant carmine-red over white.
- 2038 *Apple Blossom. Banner lovely bright rose; wings creamy-blush.
- 2039 Asta Ohn. The best lavender Spencer; exquisite rosy-lavender tinged-mauve.
- 2040 *Aurora. Striped bright orange-rose on white.
- 2043 *Captain of the Blues. Banner maroon-purple; wings magenta-purple.
- 2044 *Countess. The original grand pink Spencer.
- 2047 Florence Morse. Soft blush-pink, flushed deeper toward the edge.
- 2048 Florence Nightingale. Beautiful lavender.
- 2049 George Herbert. Salmon-rose.
- 2050 Helen Lewis. Very large fine orange-rose, wings orange-salmon.
- 2051 *Hercules. The giant among the Spencers. Immense flowers of clear rose-pink.
- 2052 King Edward VII. Bright crimson-scarlet. A fine variety.
- 2053 *King White. A flower of perfect finish in every detail and of glistening immaculate whiteness.
- 2054 Othello. Rich, deep maroon.
- 2055 Martha Washington. A lovely blush white veiled with rosy pink deepening into a Tyrian rose.
- 2056 Primrose. Soft, pale yellow.
- 2057 Queen Alexandra. Bright scarlet.
- 2059 *Robert Suydenham. Glowing orange throughout. A magnificent and distinct color. Extra fine in every way.
- 2060 Sterling Stent. Deep salmon-pink, suffused with fiery orange.
- 2061 *Vermilion Brilliant. Scarlet throughout.

Any of the above varieties, pkt., 10 cts.; oz., 30 cts.; ¼ lb., \$1.10, postpaid. 1 lb., \$4.00.

NEW EARLY OR WINTER-FLOWERING SPENCER SWEET PEAS

This race of Sweet Peas has been developed for the benefit of those wishing to grow Sweet Peas under glass during the Winter and for use in the Southern States. If planted in the Fall in our Southern States, it will begin to bloom during the Winter and will continue until destroyed by the extreme heat. It has, therefore, a much longer blooming period than the later Spencer Sweet Peas, which do not bloom much before April.

	Pkt.	Oz.
2080 Early Enchantress. Beautiful rose-pink.....	15c.	50c.
2081 Early Dazzler. Rich orange and salmon.....	15c.	50c.

IMPERIAL SALPIGLOSSIS

The writer spent some time on the grounds of the large seed-growers of England and France, but found nothing so impressive as the Imperial Salpiglossis in the trial-grounds of the famous old seed-house of Vilmorin, near Paris. These great seedsmen have been working on an improvement of this popular annual for several years and have produced one of the most beautiful flowering annuals in existence. The colors are rich and beautiful beyond description, fully equal to that of the finest Gloxinias, which they resemble. Easy of culture. Seed should be sown early in the Spring in a hotbed, or window and transplanted when weather is settled, or outdoors after danger of frost.

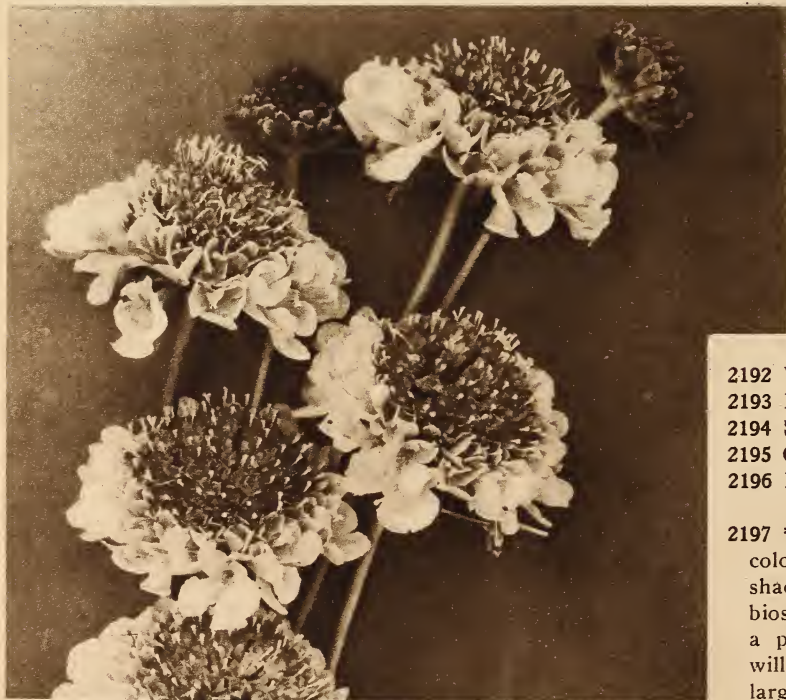

- 2477 Salpiglossis gloxinaeflora. Yellow, with white border Pkt. 15 cts.
 2478 Salpiglossis gloxinaeflora. Magenta, with yellow throat Pkt. 15 cts.
 2479 Salpiglossis gloxinaeflora. Rosy chamois, carmine center Pkt. 15 cts.
 2480 Salpiglossis gloxinaeflora. Carmine-red, striped yellow Pkt. 15 cts.
 2481 Salpiglossis gloxinaeflora. Purple-red, striped yellow. Pkt. 15 cts.
 2482 Salpiglossis gloxinaeflora. Velvety red Pkt. 15 cts.
 2483 Salpiglossis gloxinaeflora. Violet Pkt. 15 cts.
 2484 Salpiglossis gloxinaeflora. Mixed Pkt. 15 cts.
 Eight packets assorted of any of the above for \$1.

Imperial Salpiglosses

SCABIOSA

(Mourning Bride)

An annual which should be grown more generously than it is because, as a cut-flower, it has no equal. It attains a height of 2 feet. The flowers are double, with fine, long, straight stems. Somewhat fragrant. Easily started from seed and is the better for being transplanted from the seedling bed to its flowering quarters. No garden should be without some of this valuable annual.

Scabiosa

- 2192 White Pkt. 5 cts.
 2193 Rose Pkt. 5 cts.
 2194 Scarlet Pkt. 5 cts.
 2195 Golden Yellow Pkt. 5 cts.
 2196 Royal Purple Pkt. 10 cts.

2197 *Azure Fairy. This is a lovely new color—rich pale blue, almost the same shade as the beautiful perennial Scabiosa caucasica offered below. Produces a profusion of fine large flowers and will prove a valuable addition to the large-flowered annual Scabious.

Pkt. 10 cts.

- 2198 Mixed. $\frac{1}{4}$ oz., 25 cts. Pkt. 5 cts.

PLEASE ORDER SEEDS BY THE NUMBER ONLY

HARDY VARIETIES OF SCABIOSA

2208 Caucasica perfecta. This is a very handsome perennial, forming dense, spreading plants 2 to 3 feet tall. The flowers are 3 to 4 inches across, of a beautiful lilac-blue shading to a deep blue and are borne on stalks 1½ to 2 feet long. A very valuable cut-flower. Grows in any good garden soil and produces flowers from early Summer to Fall.....Pkt. 25 cts.

2209 Caucasica alba. The pure white counterpart of the above. Very beautifulPkt. 50 cts.

STOCKS

Certain flowers are not wanted in profusion, but their absence detracts from the general effect of a garden. Stocks not only help to give that desired impression of a full variety of flowers, but are beautiful in themselves, having an exquisite perfume which is highly prized. As cut-flowers in the home, Stocks are as much admired as when seen out of doors.

Giant Perfection. Ten Weeks (Cut-and-Come-Again). A perpetual-blooming class, of branching habit, giving a great profusion of fine flowers.

- 2249 WhitePkt. 10 cts.
- 2250 FleshPkt. 10 cts.
- 2251 RosePkt. 10 cts.
- 2252 VioletPkt. 10 cts.
- 2253 Light BluePkt. 10 cts.
- 2254 CrimsonPkt. 10 cts.
- 2255 MixedPkt. 10 cts.

2256 *Beauty Stocks. These are giant-flowering, growing about 2 feet tall; are excellent for growing during the Winter months. For this purpose the seed should be sown in July or August; if sown in early Spring, they bloom from July till frost. Mixed colors. Very choice.....Pkt. 15 cts.

STOKESIA (Stoke's Aster)

2277 Cyanea (Cornflower Aster). A good hardy perennial, of great value as a cut-flower. Grows about 15 inches tall, bearing lavender-blue Cornflower-like blossoms in great profusion from July to frost.....Pkt. 10 cts.

Mammoth Verbena

SWEET WILLIAM

A very popular hardy perennial for beds or borders. Very easily raised from seed; for colors and cutting purposes it is excellent.

- 2297 Pink BeautyPkt. 10 cts.
- 2298 Scarlet BeautyPkt. 10 cts.
- 2299 Single Mixed. Our best mixture procurablePkt. 5 cts.
- 2300 Double MixedPkt. 5 cts.
- 2301 *New Annual. The old favorite Sweet William, being a perennial, does not flower until the second season from seed. This new type, however, commences blooming in early Summer from Spring-sown seed and continues to bloom for several weeks, producing fine blooms of various colors, many broadly margined with white and sweetly fragrant. Pkt. 10 cts.

MAMMOTH VERBENA

The evolution of small flowers into giant blooms is one of the botanical marvels of our age. The pure white center of the Verbena gives a distinction that lingers in the mind. This large variety is particularly enjoyed. The various colors on the wide border give every opportunity to select those shades most pleasing to the individual taste.

2321 New Giant-flowering Hybrids. This strain surpasses all Verbenas in size of bloom, richness, and variety of colors. Half-hardy perennial. 1½ to 2 feet tall.....Pkt. 25 cts.

ZINNIAS

Those who may not know intimately some of the flowers listed in our pages will remember the friendly Zinnia, planted just inside the picket fence in the old-fashioned garden at home. This plant is most generous in sending out an abundance of blossoms; and because of its brilliant colors it forms one of the dazzling sections of the garden. It comes in soft mild shades for those who do not enjoy wild riotous colors, but many will wish for all the variety that Zinnias offer.

ELLIOTT'S FINEST SELECTED SEEDS

A FEW ANNUALS AND PERENNIALS WORTHY OF GENERAL CULTIVATION
WHICH MAY BE GROWN FROM SEED VERY EASILY

*Denotes varieties which we can specially recommend

ANEMONE

- 81 *St. Brigid. A Poppy-flowered variety producing an abundance of single, semi-double flowers 3 to 5 inches across in a great variety of colors, ranging from the deepest scarlet and maroon to delicate pink and from pale lilac to the deepest purple. Unsurpassed for cutting. Blooms from Summer until after frost. A hardy perennial. Will bloom the second year from seed.Pkt. 15 cts.

ARABIS

- 142 Alpina (Rock Cross). An early Spring-flowering perennial of dwarf habit, attaining a height of 6 inches; suitable for edging or rockeries; produces an abundance of pure white blossoms; very prettyPkt. 5 cts.

ARCTOTIS

- 152 *Grandis. A new annual from Southwest Africa which should have a place in every garden. It bears large, pearl-white, Marguerite-like flowers on long stems. The reverse side of the petal is lavender, while in the center of each flower is a blue disk surrounded by white stamens and a gold band, giving an unusually striking effect when seen at a distance in the sunlight. The plants grow 2 to 3 feet tall, are of easy culture, and bloom from early Summer until Fall.Pkt. 10 cts.

ARNEBIA

- 162 Cornuta. A fine, large, bushy annual, 2 feet tall. Blooms profusely all Summer. Flowers are 3/4-inch across, of a rich primrose-yellow marked with five black spots which change the second day to maroon and disappear on the third day, leaving the flower a clear bright yellow.Pkt. 10 cts.

ARGEMONE

- 172 Grandiflora hybrida. The new, large-flowering Prickly Poppy. Forms branching plants 3 feet tall, 18 inches in diameter, and is continuously covered with Poppy-like flowers of white, cream, primrose and yellow. Foliage grayish green with silvery veins. Likes a sunny situation. Grows quickly from seed and is recommended for borders.Pkt. 10 cts.

ARTEMISIA

- 182 Sacrorum viride (Summer Fir). A beautiful ornamental foliage plant growing 3 to 5 feet tall, when developed, looks like a perfectly shaped Christmas tree. The finely pinnated foliage is of a rich dark-green. Stands heat and drought remarkably well. Branches when cut will last very long and can be used for wreaths, decorations, etc.Pkt. 10 cts.

BEGONIA

The varieties described below are easily and quickly grown from seed. They are dwarf-growing and small-flowered, excellent for edging borders and beds. Also used for pot culture; will bloom nicely in the conservatory during the Winter.

- 320 Erfordia. Rosy-carminePkt. 15 cts.
321 Gracilis Luminosa. Fiery scarlet; reddish brown foliage.Pkt. 25 cts.

- 322 Vernon. Deep scarlet, with bronze foliage.Pkt. 15 cts.
323 Mixed. Splendid colorsPkt. 20 cts.

BRACHYCOME (Swan River Daisy)

A dwarf-growing annual, very floriferous, producing daisy-like flowers in various colors. Sow outdoors when all danger of frost is past.

- 355 Choice mixture of colors.Pkt. 5 cts.

BROWALLIA

- 365 Speciosa major. An exquisite annual for gardens in Summer and pot-culture in Winter. The flowers measure 1 1/2 to 2 inches across and are of a deep indigo-blue with white throat.Pkt. 25 cts.

BRYONOPSIS

- 375 Laciniosa. A good annual climber of the gourd species; ivy-like, green foliage; bears green fruits which change to bright scarlet with white stripe. Height, 10 feet.Pkt. 5 cts.

CORN

- 771 Burbank's Rainbow. This very decorative Corn is splendid for beds and borders. It grows 5 feet tall and, as it suckers out, forms good-sized clumps. The foliage is striped rose, green, cream, and purplePkt. 10 cts.

CYCLAMEN

- 819 Persicum. Giant-flowering. Very choice colors. 25 seedsPkt. 20 cts.

DOLICHOS

- 993 Lablab (Hyacinth Bean). A rapid-growing, climbing annual, bearing pea-shaped blossoms and ornamental seed-pods. Grows 12 to 15 feet. Sow outdoors where it is to remain. Mixed, purple and white. Oz., 25 cts.Pkt. 5 cts.

FOUR-O'CLOCK (Marvel of Peru)

1039. Mixed. An old-fashioned garden flower of bushy growth bearing numerous flowers of various bright colors. Pkt. 5 cts.

EUPHORBIA

- 1029 Variegata (Snow-on-the-Mountain). Very ornamental annual, grown for the pretty foliage, as the flowers are insignificant. Green foliage, veined and margined white.Pkt. 5 cts.
Feverfew. See Matricaria. Forget-Me-Not. See Myosotis.

GERANIUM

- 1085 Zonale. Mixed. An interesting plant to grow from seed by sowing early in the house and planting out as soon as the plants are well in the second leaf, but not before the end of May. Best varietiesPkt. 15 cts.

GEUM

- 1095 *Atrosanguineum fl.-pl. A hardy perennial plant of great value, bearing a profuse number of double, dark-crimson flowers; good for cutting practically all Summer. The best variety.Pkt. 10 cts.

GLOBE AMARANTH

This is a well-known everlasting annual flower, easily grown. The blooms are cut before fully open, hung up and dried. Often called "Bachelor's Buttons."

- 1100 Flesh-ColorPkt. 5 cts.
1101 PurplePkt. 5 cts.
1102 WhitePkt. 5 cts.
1103 MixedPkt. 5 cts.

GOURD

- 1126 African Pipe. A luxuriant, rapid-growing annual climber. It produces the ornamental gourds from which are made African calabash pipes, so popular on account of their lightness and grace.Pkt. 5 cts.
1127 MixedPkt. 5 cts.

HELIOPSIS

- 1170 Pitcheriana. A very desirable perennial plant for the border; grows from 3 to 4 feet tall, bearing flowers of a deep golden-yellow; very good for cutting.Pkt. 5 cts.

HUMULUS (Japanese Hop Vine)

A very rapid-growing, annual climber, attaining a growth of from 20 to 30 feet in a season. The foliage is very ornamental, of thick growth, splendid for covering verandas, trellises, etc. Provides good shade and is not affected by insects of any kind.

- 1290 *Japonicus. The green-leaved variety.Pkt. 5 cts.
1291 Japonicus variegatus. Beautiful, silvery variegated leaves; very ornamentalPkt. 5 cts.

HUNNEMANNIA

- 1301 Fumariaefolia (Giant Tulip Poppy; Bush Eschscholtzia). Although this is a perennial, it is treated as an annual. Sow it indoors early in Spring; it will bloom the end of July. It forms a nice bush, about 2 1/2 feet tall, bearing large, rich yellow, Poppy-like flowers lasting in water a long time.Pkt. 5 cts.

HYACINTH BEAN (See Dolichos)

IMPATIENS

- 1311 Holstii Hybrids. This plant originated in East Africa. It is unusually pretty in flower-beds, as it blooms abundantly from June until frost. The flowers are 1 1/2 to 1 3/4 inches across, of scarlet, pink, orange-red, and white with dark eye. Should be sown indoors in March or April and planted out in May.Pkt. 25 cts.

JAPANESE HOP (See Humulus)

JOSEPH'S COAT (See Amaranthus)

KOCHIA

- 1355 Tricophylla (Summer Cypress). A very good annual, easily grown from seed sown thinly in the Spring. It makes a nice hedge or can be grown as specimen on a lawn. Its color is light green, with finely cut leaves; in late Summer and Fall it becomes a deep red. Grows about 2 1/2 to 3 feet tall in good soil.Pkt. 10 cts.

KUDZU VINE (Pueraria)

- 1365 Thunbergiana. A Japanese perennial climber of very rapid growth, producing large, bold leaves of bright green which make a fine shade. It is a delightful thing for covering dead trees and for veranda or trellis. Flowers small and purple. Being a perennial, it attains a height of only about 8 feet the first year from seed, but when established grows 50 feet in one season.Pkt. 10 cts.

LANTANA

This is a very fine greenhouse plant, or can be used for bedding out in Summer; it is a continuous bloomer and makes trusses of bloom similar to the Verbena, but of a varied assortment of colors, ranging from orange to rose. Sow seed early, say February or March, in the house.

- 1375 Mixed HybridsPkt. 10 cts.

LADY'S SLIPPER (See Balsam)

PLEASE ORDER SEEDS BY THE NUMBER ONLY

LAVATERA

Trimestris. This is an annual suitable for large borders. It is useful as a cut-flower, producing Mallow-like flowers in great abundance all Summer. The seed can be sown outdoors in May, where the plants are to remain, thinned out, about 15 inches apart. Height about 2½ feet.

- 1409 RedPkt. 5 cts.
 1410 WhitePkt. 5 cts.
 1411 Splendens, Sunset. Robust garden annual of branching habit, growing 2½ feet tall and bearing an abundance of rich rose-pink flowers from Summer until Fall. A great improvement over other varieties. Charming as a cut-flower.....Pkt. 10 cts.

LATHYRUS LATIFOLIUS (Perennial or Everlasting Pea)

A very showy perennial climber, suitable for covering old stumps, fences, etc. The flowers are not fragrant.

- 1422 MixedPkt. 5 cts.
 1423 *White Pearl. Magnificent trusses of large, snow-white flowers.....Pkt. 10 cts.

LINUM

- 1433 Rubrum (Scarlet Flax). A very old but showy annual, with bright scarlet flowers. Sow outdoors.....Pkt. 5 cts.

LOBELIA

For edging beds or for pots and baskets there is nothing nicer than Lobelia. Sow seed early indoors in a small box or pot and transplant when large enough to handle; set out when weather is warm. It may also be sown outdoors.

- 1443 Crystal Palace compacts. Deep blue; compact growth; dark foliagePkt. 10 cts.
 1444 Emperor William. Erect; light blue; very fine. Pkt. 10 cts.
 1445 Erinus gracilis. Of trailing habit; light blue.....Pkt. 10 cts.
 1447 Cardinalis. A tall, hardy perennial variety, with fine large spikes of bright scarlet flowers; likes a moist situation. Pkt. 25 cts.

LOVE-IN-A-MIST (See Nigella)

LOVE-LIES-BLEEDING (See Amaranthus)

MAURANDIA

- 1493 Giant-flowering. A great improvement on the old favorite climbing Maurandia. It grows 6 to 10 feet tall and quickly hides a trellis from view. The vines are thickly studded with flowers double the size of the old Maurandia. Commences blooming in July and continues until frost. Mixed colors. Pkt. 10 cts.

MATRICARIA

- 1539 Capensis albo-plena (Feverfew). Although a perennial, if sown early indoors will bloom the same year. Very free-flowering, producing a great quantity of double, white flowers. A good bedding plant, 18 inches tall.....Pkt. 10 cts.

MOMORDICA

A peculiar climbing vine, with ornamental foliage and fruits. The fruits are golden-yellow, warted, and open when ripe, showing the seed and the bright red interior.

- 1614 Balsamina (Balsam Apple). Round, apple-shaped fruit Pkt. 10 cts.
 1615 Charantia (Balsam Pear). Pear-shaped.....Pkt. 10 cts.

MORNING GLORIES

(See Ipomoea and Convolvulus)

MOONFLOWERS (See Ipomoea)

PHYSOSTEGIA

- 1911 *Virginica. A very pretty, hardy perennial plant, growing in bush form 3 to 4 feet tall and producing numerous erect spikes of pink blooms good for cutting. Treat the same as the majority of perennials.....Pkt. 10 cts.

PHYSALIS

- 1921 Franchetii (Chinese Lantern Plant). A Summer-flowering perennial which is very ornamental on account of its producing sprays of fruit which turn bright red, resembling small lanterns.....Pkt. 10 cts.

POLYANTHUS

A free-flowering perennial which beautifies beds or borders in the Spring. Forms trusses of flowers on an erect-growing, strong stem about 6 to 8 inches tall. The colors are very bright and effective. Sow seed in early Spring in boxes and transplant to open ground when large enough. They can also be sown in a prepared seed-bed in the Summer for blooming the following Spring.

- 1931 Large-flowering, MixedPkt. 20 cts.

*PRIMULA (Primrose)

SPRING-FLOWERING

These are very pretty Spring-flowering plants and, although perennial, require protection in the Winter, such as covering with hay or leaves. Better still, place in a coldframe.

- 2100 Auricula. Great favorite; beautiful colors.....Pkt. 25 cts.
 2101 Japonica (Japanese Primrose). Mixed.....Pkt. 10 cts.
 2102 Vulgaris (English Yellow Primrose).....Pkt. 20 cts.
 2103 Acaulis (The Hardy Blue Primrose). A lovely blue-flowered type of the popular old English yellow Primrose and a fitting companion for naturalizing among shrubs in turf or hardy borderPkt. 25 cts.

WINTER-FLOWERING

Some of these are the most popular Winter-blooming plants, such as the Obconica and Chinensis varieties. Seed should be sown in early Spring in shallow boxes or pans, well drained, and soil should be sand and leaf-mold, very finely screened through a sieve; cover seeds very lightly and have the temperature about 65 degrees.

- 2113 Chinensis (Chinese) Fringed. Mixed.....Pkt. 25 cts.
 2114 Obconica. Large-flowered Giant Mixed.....Pkt. 35 cts.
 2115 Kewensis. A very pretty yellow Primula, bearing tall spikes with fragrant yellow blooms in whorls; splendid pot-plant for the housePkt. 25 cts.

RHODANTHE

A very pretty little annual Everlasting, of much more delicate texture than the Helichrysum; very good for pot culture.

- 2125 Mixed ColorsPkt. 5 cts.

RICINUS (Castor-Oil Plant)

A free-growing annual, very tall, with huge leaves. Very ornamental for planting in centers of beds; or as single specimens they are most suitable.

- 2136 Cambodgensis. Dark stems and bronze-colored leaves. Height 5 feet.....Pkt. 10 cts.
 2137 Gibsoni. Deep red foliage. Height 5 feet.....Pkt. 10 cts.
 2138 Zanzibarensis, Mixed. Enormous leaves of great beauty in a variety of colors.....Oz. 25 cts., Pkt. 10 cts.
 2139 Mixed. Many varietiesOz. 25 cts., Pkt. 10 cts.

RUDBECKIA (Coneflower)

- 2149 Newmanii. A very showy perennial, with large flowers of deep yellow with black cones; a grand Autumn-flowering plantPkt. 15 cts.
 2150 Bicolor superba. An annual variety of great merit; bright yellow, with brown disk; very good for cutting....Pkt. 5 cts.

SCHIZANTHUS

- 2229 *Wisetonensis (Butterfly Flower). Annual. Very easily grown from seed sown early in the Spring for Summer blooming or in the Autumn for Winter and Spring blooming. It can be grown to perfection in hanging baskets. It is such a profuse bloomer that the foliage can hardly be seen. The flowers resemble somewhat certain varieties of orchids and are of the prettiest blend of colors imaginable.....Pkt. 25 cts.

VINCA (Madagascar Periwinkle)

A very ornamental, free-flowering plant, with deep green, glossy foliage and bright, single blossoms in great profusion. Sow seed early indoors and transplant when the weather is warm.

- 2349 Pure WhitePkt. 5 cts.
 2350 White with Rose Eye.....Pkt. 5 cts.

Marshall Foch No. 2580

Loveliness No. 2579

**THE WORLD'S FINEST GLADIOLI AT SPECIAL PRICES
A SPECIAL DISCOUNT OF 5% WILL BE ALLOWED ON ALL ORDERS
AN ADDITIONAL DISCOUNT OF 5% FOR CASH WITH ORDER**

There are hundreds of varieties of Gladioli in cultivation; some good, some bad, and many indifferent. Each batch of seed sown brings forth at least one flower different from any other, and this seedling is promptly given a name and put on the market. There are hundreds of these seedlings annually swelling the list of varieties and each year adds to the confusion and makes intelligent selection more difficult.

Not wishing to have our clients waste their time or their money by growing the bad or indifferent sorts we have tested them all in order to eliminate all but the good. As a result of our tests we have adopted thirty four varieties; a collection universally conceded by all expert horticulturists to consist of the best only.

By discontinuing the growing of small lots of hundreds of the poorer sorts and by concentrating all our skill and special knowledge on the cultivation of only the really worth while kinds, we are able to offer this matchless collection in bulbs of the highest quality, and at a substantial saving in cost. By planning our labor schedule in an intelligent manner, by reducing the cost of storage and by eliminating the danger of spoilage in storage, we will be able to reduce this cost still further. In order to do this, however, we must have your order early. If it is received not later than April 1st you may discount our quoted prices 5% and if you care to remit cash with your order you may discount another 5%. Making 10% in all. After April 1st, the prices quoted in this list will be strictly net and no discount can be allowed. Prices do not include carrying charges.

We will not, of course, ship these bulbs to you until all danger of damage by frost is past and the proper planting season has arrived in your climate.

PLEASE ORDER GLADIOLI BY THE NUMBER ONLY

A Few Notes On Use and Culture of Gladioli

Gladioli should be planted as soon as all danger from frost is past. If this is not convenient or does not fit in with your garden plans they may be kept in perfect condition by storing in a cool, dry place. They should not be left unplanted, however, after July 1st. They should be planted about 4 inches deep and 6 inches apart, either in clumps among shrubbery or roses, or in rows or beds by themselves. After the foliage has turned brown late in the fall, but before heavy frosts they may be dug up and stored over winter until next spring's planting time. To have a continuous flowering season from July 1st until October, plant a number of bulbs every two weeks, beginning about April 15th, and continuously until July 1st.

All bulbs are strictly first quality, 1½ inches in diameter and larger.

Bowl of Alice Tiplady No. 2604

NEW ORCHID FLOWERING GLADIOLI PRIMULINUS HYBRIDS

The Orchid Flowering Gladioli are the last word in the development of this beautifully decorative race of summer-flowering garden-bulbs.

The name suggests flowers of rare delicacy in form and coloring. Form and coloring are the two most important qualities to consider in your selection of flowers for any purpose, and the Orchid flowering Gladioli possess these qualities in their utmost refinement.

Exquisite gracefulness in combination with the loveliest colors is the term most apt to convey, though only in a very small degree, the indescribable beauty of the Orchid Gladioli. We give them our highest praise and recommendation and urge our customers to at least try a few bulbs each of the following fine named sorts:

Shall We Trust the Experts?

The ancient industry of gardening was among the first of man's pursuits to become specialized. Today it is an important work with large nurseries to test the lives of plants in order that busy amateurs may obtain the most promising bulbs and plants and seeds that can be developed.

In the following Vegetable Seed List we are suggesting only varieties that have passed the tests of our skilled experts. If our years of critical experience can be considered valuable, we modestly hope that our patrons will trust the judgment of our firm and accept the results of our careful research. It is these tested and tried varieties that we here recommend.

The test applied in selecting the varieties listed in this Seed Catalog is the test of flavor. It is presumed

that our clients are amateurs who grow vegetables for their own tables. So, in compiling this list, we ask ourselves concerning a given variety, "Is it good to eat? Is there any better variety for table use than this one?" If there is, we choose the finer flavored kind.

We recognize, however, that some persons, particularly market gardeners, may want to grow vegetables for other than home consumption. For example, the grower may wish to sell vegetables. In that event, the ability to stand shipment well rather than fine flavor may be the prime consideration. Consequently, if our applicants desire seeds not listed here, we will promptly forward them, although we cannot recommend them in a catalog compiled primarily for a clientele growing vegetables for their own table.

A FEW INTRODUCTIONS OF EXCEPTIONAL MERIT

3016 Green Bush Bean. Full Measure

This Stringless Green podded bush bean will be a revelation to all who have not as yet grown it.

We have found it by far the best of all our trials and cannot recommend it too highly. It is strictly stringless, very productive, early, and bears pods 6 inches long of the highest quality; they are brittle, luscious, and substantial. It is free from diseases such as rust and mildew while it bears for an unusually long period.

Price per packet, 10 cts.; ½ lb., 21 cts.; 1 lb., 40 cts.; 2 lbs., 75c.; 5 lbs., \$1.80.

3024 Wax Bean. Pencil Pod

We find this the best of all the dwarf wax beans, and quite in-comparable with any other variety. It is early and very productive. The pod measures 6½ to 7 inches in length. They are round, straight, strictly stringless, free from fiber, fleshy and brittle. Of the very highest quality in every respect. The

color is very clear yellow. Plants grow exceptionally strong and vigorous.

Price per packet, 10 cts.; ½ lb., 21 cts.; 1 lb., 40 cts.; 2 lbs., 75 cts.; 5 lbs., \$1.80.

3069 Beet—Extra Early Wonder

Among our many varieties in the trial garden we have found this new beet to be decidedly the best under all conditions. Roots are very uniform, globe-shaped, with small top and tap root. Skin dark red, flesh deep blood red with hardly any zoning. Very fine for both early and late planting.

Price per packet, 10 cts.; 1 oz., 15 cts.; ¼ lb., 50 cts.; ½ lb., 90c.; 1 lb., \$1.75.

3478 Pepper Pimento

The sweetest pepper grown. Very thick fleshed, heart shaped, smooth, crimson variety. Unexcelled for salads.

Price per packet, 10 cts.; ½ oz., 30 cts.; 1 oz., 55c.

PLEASE ORDER SEEDS BY THE NUMBER ONLY

3048

POLE LIMA BEAN

3048 Pole Lima Bean. New Giant Podded

Undoubtedly the best of all the pole lima beans. It is the largest podded lima in cultivation, extremely vigorous in growth with dark green foliage and pods. Mid-season. Pods measures 7 inches long by 1½ inches broad and are borne in clusters of 6 to 8. Beans extra large and of the highest quality.

Price per packet, 10 cts.; ¼ lb., 24 cts.; 1 lb., 42 cts.; 2 lbs., 80 cts.; 5 lbs., \$1.90.

3094 Carrot, Nantes Half Long

A new carrot of superior quality. Roots 6 to 8 inches long, nearly cylindrical, blunt ended, smooth and of a bright orange color. Flesh red, sweet and mild, almost coreless.

Price per packet, 5 cts.; 1 oz., 20 cts.; 4 oz., 75 cts.; ½ lb., \$1.40; 1 lb., \$2.50.

3118 Cabbage, Copenhagen Market

This remains one of the finest cabbages in cultivation. It is almost as early as Early Jersey Wakefield and produces a fine, solid, round head of excellent quality. Free from any coarse veining in the leaves; tender and crisp.

Price per packet, 10 cts.; 1 oz., 40 cts.; ¼ lb., \$1.50.

3220 Cucumber, Early Fortune

The finest type of white spine cucumber yet produced. Very productive and free from disease. Nine inches long, slightly tapering. A very handsome cucumber of a deep green color. Flesh very firm and crisp with very few seeds.

Price per packet, 10 cts.; 1 oz., 25 cts.; ¼ lb., 90c.; 1 lb., \$3.25.

3381 Alsas Craig Onion

A splendid EXHIBITION ONION of handsome form, fine texture and mild in flavor.

Price per packet, 25 cts.; ½ oz., 50 cts.; 1 oz., 90 cts.

3491 Pumpkin, Small Sugar-Pie

Small, round fruits of a deep orange color. Flesh a deep orange-yellow; very thick and of the highest quality. The best pumpkin for making pies.

Price per packet, 10 cts.; 1 oz., 25 cts.; ¼ lb., 90 cts.

3424 Peas, World's Record

This is a new pea of marvelous quality. Pods 4 inches long, filled with 7 to 9 very large, dark green peas. Height 2 feet. This is a real fine dwarf early pea for the private garden.

Price per packet, 10 cts.; ¼ lb., 20 cts.; 1 lb., 38 cts.; 2 lbs., 75 cts.; 5 lbs., \$1.75.

3505 Radish, Sparkler (White Tipped)

A most handsome white tipped radish of finest quality. Solid, crisp and mild. Flesh, pure white and never pithy.

Price per packet, 10 cts.; 1 oz., 15 cts.; ¼ lb., 50 cts.

3298 Lettuce, All Heart

This is the very best heading variety we have yet found. It heads equally well in mid-summer and in Fall as in the Spring. Forms a solid fine head of light green color, very tender, crisp and fresh.

Price per packet, 10 cts.; ½ oz., 20 cts.; 1 oz., 35 cts.; ¼ lb., \$1.25.

3353 Muskmelon, Tip-Top

A most excellent melon for all localities where melons may be grown. A large melon of attractive pale green color. Flesh, deep salmon, very thick with small seed cavity, deliciously sweet and spicy.

Price per packet, 10 cts.; 1 oz., 35 cts.; ¼ lb., \$1.25.

3166 Celery Emperor

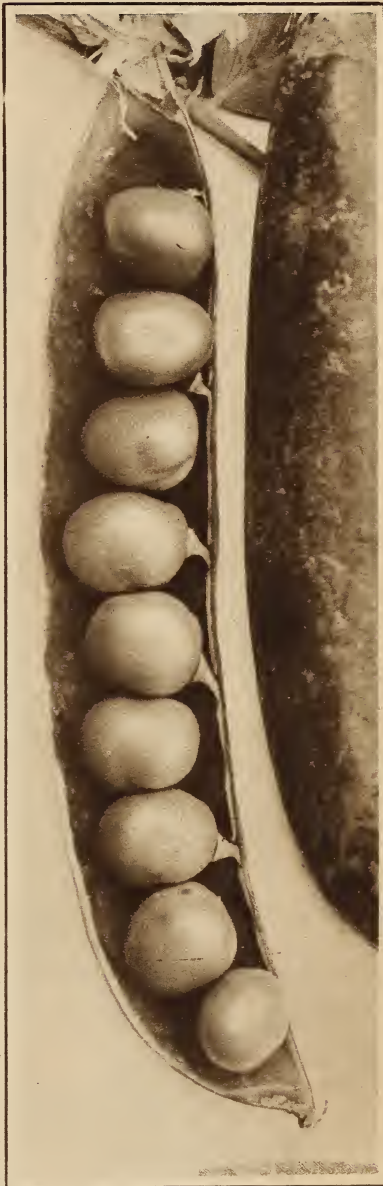

A very fine celery from Columbia. Hearts large and full of a light yellow color. Stalks very crisp, broad and thick. A superior celery for Fall and Winter use.

Price per packet, 10 cts.; ¼ oz., 25 cts.; ½ oz., 45 cts.; 1 oz., 80 cts.

3457 Squash, Delicious

A squash of superior quality for the home garden. Excellent for Summer and Winter use. Fruits top-shaped, dark green in color. Flesh, orange, very dry and of a truly delicious flavor.

Price per packet, 10 cts.; 1 oz., 25 cts.; ¼ lb., 90 cts.

3424. Peas, World's Record

PLEASE ORDER SEEDS BY THE NUMBER ONLY

3000

ASPARAGUS

3000 Palmetto. Large; early; uniform in size; prolific and disease-resisting.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 25 cts.; lb., 80 cts.

3001 Asparagus Roots. Three years old. Will bear the second season.

\$3.00 per 100; \$25 per 1,000

BRUSSELS SPROUTS

3006 Dalkeith. Produces an abundant crop of tender and delicious "Sprouts" in Fall and early Winter. As easily grown as cabbage.

Pkt., 10 cts.; oz., 30 cts.; $\frac{1}{4}$ lb., \$1.

GREEN BUSH BEANS

3011 Bountiful. This splendid variety is a distinct improvement in green Bush Beans. We can not praise it enough to do it justice. The plants are vigorous, hardy, practically rust- and mildew-proof, extremely early, and very prolific bearers for an unusually long period. The pods are of immense size, very uniform in shape, of delicious flavor, and very tender. Absolutely stringless.

Pkt., 10 cts.; $\frac{1}{2}$ lb., 14 cts.; lb., 27 cts.; 2 lbs., 50 cts.; 5 lbs., \$1.20.

3013 Refugee, or 1,000-to-1. An exceedingly popular variety on account of its extreme productiveness. It is medium early and of robust, branching, bush growth. The pods are round, long, and slim, fleshy, and brittle, with but slight strings and fine flavor. It is a very satisfactory Bean for pickling and is extensively grown for a Fall crop.

Pkt., 10 cts.; $\frac{1}{2}$ lb., 15 cts.; lb., 28 cts.; 2 lbs., 50 cts.; 5 lbs., \$1.20.

WAX-PODDED BUSH BEANS

3026 Improved Golden Wax. A very popular early variety, with long, flat, nearly straight clear yellow pods. An immense producer and all-round fine variety for the home garden.

Pkt., 10 cts.; $\frac{1}{2}$ lb., 15 cts.; lb., 28 cts.; 2 lbs., 50 cts.; 5 lbs., \$1.20.

CHERVIL

3140 Curled. A variety with crisp, curled leaves, used for flavoring soups and salads.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 15 cts.; oz., 25 cts.; $\frac{1}{4}$ lb., 85 cts.

TOMATO

3568 Tomato, Red Head. A most remarkable new tomato. We have found this tomato to be incomparable in every respect and gladly give it our highest recommendation. It will mature with the very earliest tomatoes and can even be grown to perfection far North. The fruits are always large, uniform, very solid, smooth, and of a most attractive bright red color. This is the last word in tomatoes and we urge our customers to try at least one packet of it.

Price per packet, 15 cts.; $\frac{1}{2}$ oz., 40 cts.; 1 oz., 75 cts.; $\frac{1}{4}$ lb., \$2.80.

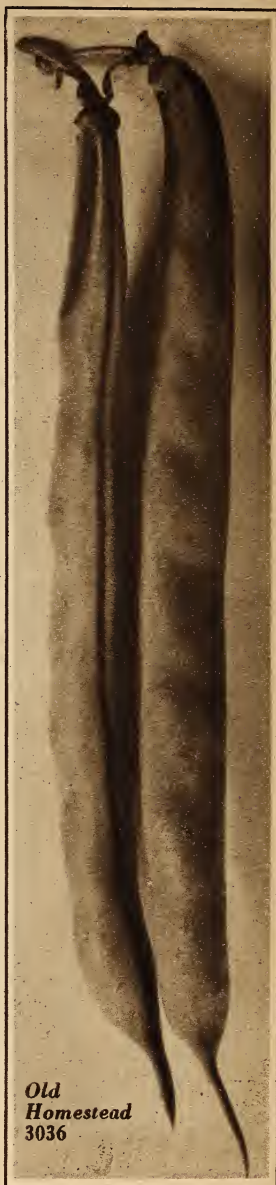

3006

3036 Old Homestead, or Kentucky Wonder. This is, without doubt, the best green-podded snap Pole Bean in existence and for this reason is the most popular. It is ten days earlier than any other Pole Bean and of continuous productiveness from early July until frost. The pods are 6 to 8 inches long, entirely stringless, and of marvelous quality. They hang on the vines in bunches from top to bottom and can be picked by the handful. It is also excellent for use as a shelled Bean.

Pkt., 10 cts.; $\frac{1}{2}$ lb., 16 cts.; lb., 30 cts.; 2 lbs., 55 cts.; 5 lbs., \$1.30.

3037 Kentucky Wonder Wax. The earliest pole wax bean. Pods 8 to 9 inches long, thick, very fleshy, brittle but stringy. A very attractive bean of the finest quality. Color light yellow.

Price per packet, 10 cts.; $\frac{1}{2}$ lb., 24 cts.; 1 lb., 44 cts.; 2 lbs., 80 cts.; 5 lbs., \$1.90.

Old Homestead 3036

BROCCOLI

3085 White Cape. This vegetable much resembles cauliflower. Heads of good size, compact, and of creamy white color. One of the most certain to head.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 30 cts.; oz., 55 cts.; $\frac{1}{4}$ lb., \$1.85.

COLLARDS

3157 True Georgia. The plant grows 2 to 3 feet tall, forming clusters of tender, undulated leaves at the top of rather long stems. Used as greens and as a substitute for cabbage in the South and West.

Pkg., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.; lb., \$1.10.

PLEASE ORDER SEEDS BY THE NUMBER ONLY

3090

CARROTS

3090 Half-Long Danvers. Medium early. A very good Carrot for all soils. Roots grow 6 to 8 inches long, tapering to a blunt point. The flesh is close-grained, of a deep orange color; has a very small core. Roots are easily harvested and excellent for Winter storage.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.; lb., \$1.10

3091 Chantenay. Medium early. A splendid half-long stump-rooted variety, growing 6 to 7 inches long. The flesh is of a rich orange color, practically free from core, tender, juicy, and of fine flavor.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.; lb., \$1.10.

ELLIOTT'S TABLE BEETS

Crimson and vermilion-red would seem to belong mainly to plants and flowers; but in the choice varieties of Beets suggested here, we find these same rich colors. They add greatly to this tempting vegetable, one which may be brought direct from the garden to kitchen for immediate use in early Summer or which, planted late, may be carried over for Winter. Pickled Beets have become a staple article in a well-stored pantry and prove an excellent relish with other vegetables or rich meats.

3075 Detroit Dark Red. One of the very best for home garden. The roots are uniformly smooth, large, and globe-shaped. The flesh is solid, of best quality, and vermilion-red in color. Succeeds well at all seasons. One of the best to sow in the Spring to succeed the extra-early and medium-early varieties.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.; lb., \$1.

3071 Crosby's Egyptian. This is the largest of the early sorts. Flesh a trifle lighter than usual in color but of fine quality.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.; lb., 90 cts.

3073 Long Smooth Blood-Red Beet. An excellent late variety. Both root and leaves are of an intense dark red. The roots grow 14 inches long and are smooth and rather slender. The flesh is of fine quality, being of good flavor and tender. Excellent for Winter storage.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 40 cts.; lb., \$1.25.

LIMA BEANS

Lima Beans are highly esteemed as a table vegetable. They are of high nutritive value and should be grown more extensively. They are much richer and more delicate in flavor than ordinary Beans and unexcelled for boiling, baking, or canning.

3046 Fordhook Bush Lima. A most popular variety of fine quality. The plant has a strong, upright growth which protects the pods from contact with the soil, thus preventing rust or rot. It is exceedingly productive, bearing pods in clusters of from four to eight. The pods are large and contain from three to five large, oval-shaped, very thick Beans of a delicious flavor.

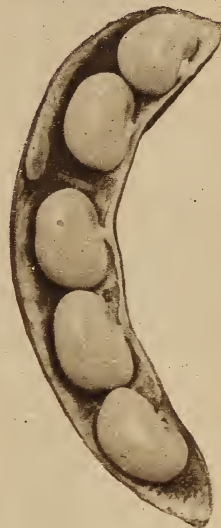

Pkt., 10 cts.; $\frac{1}{2}$ lb., 18 cts.; lb., 35 cts.; 2 lbs., 65 cts.; 5 lbs., \$1.45.

3047 Burpee's Improved Bush Lima. This variety produces pods of enormous size well filled with Beans. An improvement on the old Burpee's Bush Lima in that the Beans are thicker and more numerous, the pods larger, and the plants more productive.

Pkt., 10 cts.; $\frac{1}{2}$ lb., 18 cts.; lb., 35 cts.; 2 lbs., 65 cts.; 5 lbs., \$1.45.

3049 Elliott's Leviathan. The earliest of all. Pole Lima Beans are, as a rule, later than Bush Lima Beans, for which reason the crops mature with difficulty in some localities. This variety, however, is fully a week earlier than any other Pole Lima and can therefore be grown successfully in Northern States and in localities where cool nights retard growth. Most prolific, producing large pods well filled with large, fleshy Beans of an excellent flavor. The Beans are white and may be shelled from the pod with ease.

Pkt., 10 cts.; $\frac{1}{2}$ lb., 18 cts.; lb., 35 cts.; 2 lbs., 65 cts.; 5 lbs., \$1.45.

3046

3075

PLEASE ORDER SEEDS BY THE NUMBER ONLY

3145

CAULIFLOWER

3145 Early Snowball. Undoubtedly the finest and most popular variety. Seed sown under glass in February and then planted out after frost will produce fine heads by June 1st. The heads are very solid, of the very finest quality. Seldom fails to produce a good-sized head. This variety is not only unsurpassed for Spring use, but it is incomparable for the Fall.

Pkt., 25 cts.; $\frac{1}{4}$ oz., 80 cts.; $\frac{1}{2}$ oz., \$1.50; oz., \$2.50.

3147 Dry Weather. One of the very finest varieties of Cauliflower grown and better fitted than any other for growing in dry locations.

Pkt., 25 cts.; $\frac{1}{4}$ oz., 80 cts.; $\frac{1}{2}$ oz., \$1.50; oz., \$2.50.

CHICORY

3201 Witloof. The plants form long Parsnip-shaped roots. These roots are forced in the frame, greenhouse, or dark cellar. The new growths of Lettuce-like leaves which then appear are cut and used as salad. It is very easily grown and comes at a time when salad is most scarce.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 20 cts.; oz., 35 cts.; $\frac{1}{4}$ lb., \$1.

CRESS

3211 Extra Curled. A small, curled plant, having a fine pungent flavor and used as a salad.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 40 cts.; lb., \$1.25.

3212 True Water Cress. For growing along banks of ponds and streams. Highly esteemed for salads and garnishing.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 35 cts.; oz., 60 cts.; $\frac{1}{4}$ lb., \$2.

CELERY

3167 Golden Self-blanching. This sort is, without doubt, the best early Celery in cultivation. Plants are compact and stocky, with yellowish green foliage. Stalks perfectly solid, of a fine nutty flavor. Attains large size and when blanched is of a handsome golden yellow.

Pkt., 15 cts.; $\frac{1}{2}$ oz., 30 cts.; oz., 50 cts.; $\frac{1}{4}$ lb., \$1.75.

CABBAGE

3113 Late Flat Dutch. A justly popular and esteemed variety for home and market. The heads are large, round, slightly flattened, and very firm. It is very hardy and excellent in every respect.

Pkt., 10 cts.; oz., 20 cts.; $\frac{1}{4}$ lb., 75 cts.; lb., \$2.75.

3114 Danish Ballhead, or Hölland. One of the very best Winter sorts on account of its keeping qualities. The heads are round and very compact, almost as hard as iron. Good for boiling, slaw, or sauerkraut, being crisp, tender and sweet.

Pkt., 10 cts.; oz., 40 cts.; $\frac{1}{4}$ lb., \$1.50; lb., \$5.00.

3116 Early Jersey Wakefield. The most widely known and popular early variety. Heads cone-shaped, very solid and of finest quality.

Pkt., 10 cts.; oz., 20 cts.; $\frac{1}{4}$ lb., 75 cts.; lb., \$2.75.

3119 Red Dutch. A very popular variety producing medium-sized heads. A good keeper and extensively used for pickling.

Pkt., 10 cts.; oz., 30 cts.; $\frac{1}{4}$ lb., \$1.15; lb., \$3.

3120 American Drumhead Savoy. The flavor of Savoy or crumpled-leaved Cabbage is very superior to that of ordinary Cabbage, being sweet, delicate, and most delicious. Worthy of a place on any table.

Pkt., 10 cts.; oz., 30 cts.; $\frac{1}{4}$ lb., \$1.10; lb., \$2.75.

3116

3168 Improved White Plume. This is also an excellent early variety. Has a delicious flavor, crisp, and tender. The stalks are slim and blanch very easily. May be ready to blanch in September and fit for the table within a few days. Color when blanched is silvery white.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 15 cts.; oz., 25 cts.; $\frac{1}{4}$ lb., 75 cts.

3169 Easy-blanching. This variety is distinct from any other sort and has not only all the qualities of the best early varieties, but is an excellent keeper also. It is good for the entire season and so easily grown that even the most inexperienced amateur gardener can have the finest Celery. Easily and quickly blanched; of medium height; has crumbled leaves and thick broad stalks, with shallow ribs. It is tender, brittle, and of fine flavor.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 35 cts.; oz., 60 cts.; $\frac{1}{4}$ lb., \$2.

CELERIAC, or Turnip-Rooted Celery

3179 Large Smooth Prague. A highly developed large variety. Roots almost round and smooth skinned.

Pkt., 5 cts.; $\frac{1}{2}$ oz., 10 cts.; oz., 20 cts.; $\frac{1}{4}$ lb., 75 cts.

PLEASE ORDER SEEDS BY THE NUMBER ONLY

SWEET CORN

3189 Golden Bantam. This famous variety is, without doubt, the best for the home garden. While its plant and ear are small, it may be planted so much closer together than the larger-eared sorts that the net product will be about the same. The ear is of remarkably good quality, exceptionally sweet, and of a flavor that no other Corn can boast of. Where only one kind of Corn is planted, this variety is surely the best to choose, as it succeeds admirably under all conditions and can be planted in succession during the entire Summer.

Pkt., 10 cts.; $\frac{1}{2}$ lb., 14 cts.; lb., 26 cts.; 2 lbs., 50 cts.; 5 lbs., \$1.10.

3188 Sweet Corn Golden Evergreen. This excellent new sweet corn originated by crossing our popular Golden Bantam corn with Stowell's Evergreen corn. It has the fine qualities of both its parents and matures right after Golden Bantam making it very valuable for growing as a succession to this variety. It is a corn of the highest quality. The ears are 8 inches long with 12 to 14 rows of deep-grained golden yellow luscious corn.

Price per packet, 10 cts.; $\frac{1}{2}$ lb., 20 cts.; 1 lb., 38 cts.; 2 lbs., 70 cts.; 5 lbs., \$1.65.

3190 Country Gentleman. This variety, like Golden Bantam, has justly become famous all over the United States. The plant is very prolific, often producing three ears to the stalk. The ears are 8 to 9 inches long, densely covered with plump, milky kernels of exceptional quality and unusual depth. The ear is almost all Corn, the cob being nothing more than a core. Matures slowly and is ready to succeed the earlier varieties.

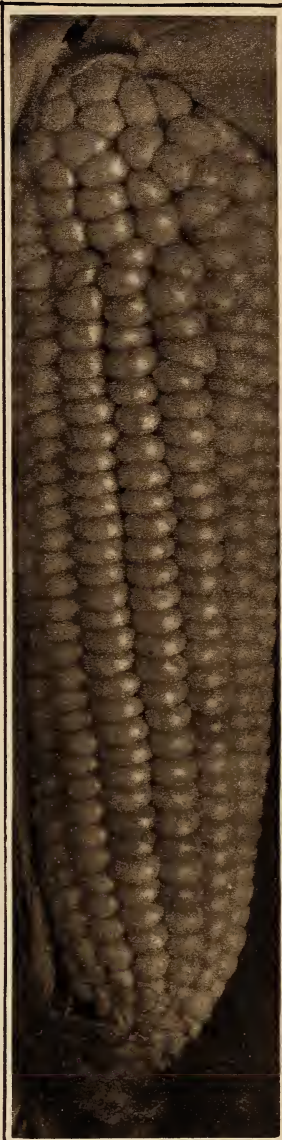

Pkt., 10 cts.; $\frac{1}{2}$ lb., 14 cts.; lb., 26 cts.; 2 lbs., 50 cts.; 5 lbs., \$1.10.

3191 Stowell's Evergreen. The standard and one of the best known Sweet Corns. Ears 8 to 9 inches long, 16- to 18-rowed, with very deep, sweet grain. A great favorite.

lb., 14 cts.; lb., 26 cts.; 2 lbs., 50 cts.; 5 lbs., \$1.10

3189

3188

CUCUMBER

3221 Earliest of all. An extra early very prolific cucumber. Fruits very full and uniform. Color deep green. A very valuable variety.

Price per packet, 5 cts.; 1 oz., 15 cts.; $\frac{1}{4}$ lb., 50 cts.

3224 Long Green Improved. This is a standard, late, well-known table sort. The fruit is slender, tapering toward the ends, 14 to 15 inches long, and of a dark green color. Flesh is crisp, white, and firm. Pkt., 5 cts.; oz., 15 cts.; $\frac{1}{4}$ lb., 45 cts.; lb., \$1.50.

3225 Japanese Climbing. This variety may be grown either on a trellis or on the ground. For the latter,

3221

3226 Chicago Pickle. A most excellent pickling sort, very uniform in size, productive and of a fine green color.

Price per packet, 5 cts.; 1 oz., 15 cts.; $\frac{1}{4}$ lb., 50c.; 1 lb., \$1.75.

it should be planted at least 5 feet apart. Since it will grow on a trellis, it has many valuable features. It takes up less space in the garden and keeps the fruit from the ground, thus preventing rot during wet spells. The fruit is of a dark green color, 10 inches long, thick, crisp, and of fine quality.

Pkt., 5 cts.; oz., 20 cts.; $\frac{1}{4}$ lb., 60 cts.; lb., \$2.

PLEASE ORDER SEEDS BY THE NUMBER ONLY

LETTUCE

Lettuce no longer belongs to early Summer, but is a perennial requirement for a well-ordered table. Its uses are varied. When all the more tempting and artistic methods of serving are exhausted, it is still a great dish when wilted in the Continental fashion. Physicians insist that no vegetable equals Lettuce, since it distends the organs without overtaxing them and both palliates and nourishes the system. Many persons prefer it for breakfast rather than for dinner as a choice delicacy with which to start the day.

Big Boston
3299

3299 Big Boston. This is one of the most popular and famous varieties of Lettuce on the market. The heads are large and compact, of a light green shade, packed with thoroughly blanched leaves which are tender and crisp. While it will do well at almost any time of the year except during the hottest months, it is particularly well adapted for Fall culture.

Pkt., 5 cts.; ½ oz., 10 cts.; oz., 20 cts.; ¼ lb., 60 cts.

3300 Golden Queens. The best first-early Lettuce. Forms very solid heads of rich, very light green shade. As the heads are solidly packed, there is more to them than to some varieties double their size. The leaves are tender, juicy, crisp, and well blanched.

Pkt., 10 cts.; ½ oz., 15 cts.; oz., 30 cts.; ¼ lb., 90 cts.

3301 New York. For Summer crops this variety can not be excelled. It is deep rooted, of robust growth, and will stand hot weather perfectly. Forms heads under the most trying conditions. Heads grow to enormous size, 15 to 16 inches across, very solid, dark green, and of unrivaled quality, without a trace of bitterness. Leaves broad, of very thick texture.

Pkt., 10 cts.; ½ oz., 20 cts.; oz., 35 cts.; ¼ lb., \$1.

3302 Grand Rapids. The favorite loose-leaved Lettuce. Does well in the North for early planting outside and is very popular in the West. Forms no heads but produces an abundance of heavily crumpled and fringed leaves of an exceedingly fine quality, brittle, tender, and sweet; excels in flavor many of the best heading varieties. The easiest Lettuce to grow. To those who can not succeed in getting Lettuce to head we strongly recommend this variety.

Pkt., 5 cts.; ½ oz., 10 cts.; oz., 20 cts.; ¼ lb., 60 cts.

3297 Black Seeded Simpson. One of the best and most popular large, early, loose-heading variety. It succeeds everywhere and is always reliable. Leaves excessively frilled and crumpled and of the best quality.

Price per packet, 5 cts.; ½ oz., 15 cts.; 1 oz., 25 cts.; ¼ lb., 90 cts.

3304 Romaine, or Trianon Cos. (Self-closing). This is the best of the Cos varieties, which are becoming very popular on account of their distinct and pleasing flavor. Our Self-closing variety forms well-blanched, firm, loaf-shaped heads and does not need to be tied up like the ordinary Romaine. Almost the entire plant is tender and palatable.

Pkt., 5 cts.; ½ oz., 15 cts.; oz., 25 cts.; ¼ lb., 70 cts.

3305 Elliott's Succession Collection

of Three Superior Head Lettuces: Golden Queen for extra-early. New York for mid-summer. Big Boston for late crop.

One pkt each of the above 3 varieties, 20 cts.

WATERMELON

3325 Cole's Early. This is, without doubt, the best early Watermelon. Where Watermelons never grew before, because of unfavorable climate, Cole's Early is grown successfully, supplying the table with its delicious fruit. With Cole's Early, North really rivals South in the production of Watermelons, for as far north as Canada, Cole's Early produces melons of excellent quality. The easiest Watermelon to grow; produces a bountiful crop of melons 12 inches long and 9 inches in diameter—not large, but of the best quality. The flesh is deep red, of delicious flavor, very sweet, and ripens from heart to rind.

Pkt., 5 cts.; oz., 15 cts.; ¼ lb., 45 cts.; lb., \$1.25.

3328 Kleckley's Sweet, or Monte Cristo. Medium to large in size; shape, oblong, tapering toward the stem end. Flesh is of a rich red color, exceedingly sweet, and ripens to the rind. Medium early.

Pkt., 5 cts.; oz., 10 cts.; ¼ lb., 30 cts.; lb., \$1

3329 Tom Watson. One of the best main-crop sorts. Grows to enormous size; a good shipping melon. Flesh rich red, of excellent quality.

Pkt., 5 cts.; oz., 10 cts.; ¼ lb., 30 cts.; lb., \$1.

DANDELION

3335 Improved Broadleaved. A distinct very early variety, forming a rosette of large, broad leaves.

Pkt., 10 cts.; ½ oz., 25 cts.; oz., 40 cts.; ¼ lb., \$1.25.

EGGPLANT

3245 Black Beauty. This variety is about two weeks earlier than other large sorts. It produces very handsome, purple-black fruits of fine quality and of uniform size.

Pkt., 10 cts.; ½ oz., 30 cts.; oz., 60 cts.; ¼ lb., \$2.25.

ENDIVE

3266 Broad-leaved Batavian (Escarolle). One of the best varieties for salads. Leaves broad, more or less twisted and waved, bright green, with a nearly white midrib. Inner leaves form a fine head which blanches a creamy white. An excellent salad plant, available long after the Lettuce season and easier to grow.

Pkt., 10 cts.; oz., 15 cts.; ¼ lb., 50 cts.; lb., \$1.75.

3267 Green Curled. The most hardy and vigorous sort. Leaves bright green, with other midribs showing a trace of rose, It readily blanches a creamy white.

Pkt., 10 cts.; oz., 15 cts.; ¼ lb., 50 cts.; lb., \$1.75.

KOHLRABI

3277 White Vienna. A variety of Cabbage with a Turnip-like bulb which forms immediately above the ground. It is extremely tender and of fine flavor. Bulbs are large enough to be eaten in ten to twelve weeks. As they are more tender when not fully matured, successive sowings should be made instead of depending upon one standing crop.

Pkt., 10 cts.; ½ oz., 15 cts.; oz., 23 cts.; ¼ lb., 75 cts.

LEEK

3288 American Flag. The favorite variety for the home garden. It is strong-growing, broad-leaved, and productive. The stems average 2 inches through and 10 inches long. They blanch beautifully white and are of fine mild flavor.

Pkt., 10 cts.; ½ oz., 15 cts.; oz., 25 cts.; ¼ lb., 75 cts.

KALE or BORECOLE

3256 Dwarf Curled Scotch. A handsome, very finely curled, dwarf spreading variety. Foliage long and of an attractive bright green. The plants are hardy above zero. Frost improves their quality.

Pkt., 10 cts.; oz., 20 cts.; ¼ lb., 60 cts.; lb., \$2.

PLEASE ORDER SEEDS BY THE NUMBER ONLY

3349 Rocky Ford

MUSKMELON

3349 Rocky Ford. An excellent variety. Medium in size, almost round, with a heavy gray netting. The flesh is thick and deep green, showing a faint lining of pink or gold at the center; highest quality.

Pkt., 5 cts.; oz., 15 cts.; $\frac{1}{4}$ lb., 45 cts.; lb., \$1.50.

3350 Early Hackensack. An early selection of the old Hackensack, maturing a week to ten days earlier. The fruit is of medium size, broadly ribbed with a strongly defined netting. The flesh is very thick, of a rich appearance and delicious flavor.

Pkt., 5 cts.; oz., 15 cts.; $\frac{1}{4}$ lb., 45 cts.; lb., \$1.50.

3348 Surprise.

A very delicious, large, salmon fleshed melon. Slightly oblong, full and rounded. One of the very finest melons in cultivation today and a gem for the garden.

Price per packet, 15 cts.; 1 oz., 50 cts.; $\frac{1}{4}$ lb., \$1.80.

3352 Osage, or Miller's Cream. A large, oval melon of very superior quality. Flesh orange-salmon, exceedingly thick, with small seed-cavity. One of the best main-crop varieties grown.

Pkt., 10 cts.; oz., 15 cts.; $\frac{1}{4}$ lb., 50 cts.; lb., \$1.75

OKRA or GUMBO

A very popular Southern vegetable which succeeds just as well in the North.

3372 White Velvet. A tall-growing variety with long, round smooth pods of a velvety white color. Extremely tender and very prolific. The best variety.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.; lb., 90 cts.

ONION

3382 Prizetaker. This is the finest of all American Onions. It grows to enormous size, is mild in flavor, and keeps better than any other sort. The outer skin is of a pale straw color, the flesh white throughout and solid. It is as easily grown as any other sort. The young plants are excellent in salads. The half-grown bulbs can be used in Summer and the mature ones at all times. Not only does it grow to enormous size, but every bulb uniformly so. In whatever way it is prepared, whether sliced, baked, or boiled, it has no equal.

Pkt., 5 cts.; $\frac{1}{2}$ oz., 15 cts.; oz., 25 cts.; $\frac{1}{4}$ lb., 85 cts.

3383 Southport Red Globe. The best type and most popular of red Onions. The bulbs are distinctly globe-shaped, with small necks; are excellent keepers. The color is a deep purplish red. Best quality and a little stronger than the white and yellow sorts.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 16 cts.; oz., 30 cts.; $\frac{1}{4}$ lb., \$1.

3384 Southport White Globe. A true globe-shaped Onion with thin, delicate white skin. Flesh is very crisp, fine-grained, and snowy white. Flavor exceedingly mild.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 18 cts.; oz., 35 cts.; $\frac{1}{4}$ lb., \$1.10.

3385 Southport Yellow Globe. The most largely grown yellow Onion. The bulbs are globe-shaped, with small necks and heavy skins; a fine sort for storage. The color is deep yellow or golden brown. Flesh is white, crisp, and mild in flavor.

Pkt., 5 cts.; $\frac{1}{2}$ oz., 15 cts.; oz., 25 cts.; $\frac{1}{4}$ lb., 85 cts.

3386 White Portugal, or Silverskin. This is a large, white, flat Onion with silver skin and mild, pleasant flavor. The flesh is solid, crisp, and fine-grained. Extensively used for pickling and bunching.

Pkt., 5 cts.; $\frac{1}{2}$ oz., 13 cts.; oz., 25 cts.; $\frac{1}{4}$ lb., 75 cts.

3382

Prize Taker

PARSLEY

3406 Champion Moss Curled. A compact-growing sort. The leaves are of a dark green color, very finely cut, and so closely curled as to resemble a bunch of moss. One of the most useful and decorative sorts.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 40 cts.

3407 Emerald. The moss-like leaves are finely curled and of a handsome emerald green color; very popular for garnishing.

Pkt. 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 40 cts.

PARSNIP

3412 Hollow-Crown. Better known and more generally grown than any other sort. The roots are smooth, averaging 15 inches in length and 3 inches in diameter at the top; tender and sweet.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.

3412

PLEASE ORDER SEEDS BY THE NUMBER ONLY

PEAS

3421 Little Marvel. An extra fine dwarf pea. Height 14 inches. Very productive. The best dwarf pea for a small garden.
Price per packet, 10 cts.; $\frac{1}{2}$ lb., 18 cts.; 1 lb., 35 cts.;
2 lbs., 65 cts.; 5 lbs., \$1.50.

3423 Laxtonian. Height 18 inches. A grand early Dwarf Pea for the private garden. The vines grow very sturdy, needing no support. The pods, which are produced very liberally, are very large and contain eight to nine luscious Peas of as delicious a flavor as any of the later varieties. Ready for use about one week later than Nott's Excelsior. A fine variety to succeed this very early sort. Should have a place in every private garden.

Pkt., 10 cts.; $\frac{1}{2}$ lb., 20 cts.; lb., 40 cts.; 2 lbs., 75 cts.;
5 lbs., \$1.60.

3428 Prosperity, or Gradus. Height 3 feet. This is the first of the large-podded varieties to come to maturity and may be on the table 55 days from the date of sowing. An enormous bearer. Produces large pods filled with six to ten large Peas of remarkable quality. May be planted a little thicker than ordinary varieties, as it is single-vined and does not branch.

Pkt., 10 cts.; $\frac{1}{2}$ lb., 18 cts.; lb., 35 cts.; 2 lbs., 65 cts.;
5 lbs., \$1.40.

3452 Prize-Winner. Height $2\frac{1}{2}$ feet. In this splendid variety, which comes to us from one of England's best Pea-breeders, we have an ideal dwarf main-crop sort, giving us as many and as large pods as the very tall varieties. The vine is remarkably sturdy and the foliage heavy, both very dark-green in color. The pods are from $4\frac{1}{2}$ to 5 inches in length, very broad and heavy, straight, pointed, dark green. They contain nine very large Peas of the most excellent quality. We recommend Prize-Winner for a main crop where dwarf growth, productiveness, and high quality are desired.

Pkt., 15 cts.; $\frac{1}{2}$ lb., 25 cts.; lb., 45 cts.; 2 lbs., 85 cts.;
5 lbs., \$2.

3451 Telephone. Height 5 feet. This is one of the oldest varieties grown; an old favorite; today better than ever. Produces an abundant crop of enormous pods well filled with large Peas of rich flavor. Vines are tall but not heavy, requiring little support.

Pkt., 10 cts.; $\frac{1}{2}$ lb., 20 cts.; lb., 38 cts.; 2 lbs., 75 cts.;
5 lbs., \$1.70.

RADISHES

3500 Crimson Giant. Extremely early and double the size of any other early Radish. Never hollow or pithy but always fresh, sparkling white, solid, crisp, juicy, and of mild flavor.

Pkt., 5 cts.; oz., 15 cts.; $\frac{1}{4}$ lb., 30 cts.; lb., \$1.75.

3503 White-tipped Early Scarlet Turnip. The most popular of all Radishes; unsur-

3503

passed for the table. Has a very attractive appearance, flesh white, crisp, and mild in flavor. Should be in every garden.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.; lb., \$1.

3504 French Breakfast. An extremely quick-growing, oblong-shaped Radish, rosy scarlet with a white tip. A favorite table Radish.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.; lb., \$1.

3514 Icicle. This leading variety is one of the earliest long, pure white Radishes. Grows about 6 inches long; white throughout and of finest quality.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.; lb., \$1.

3516 Long Brightest Scarlet. One of the best colored, most handsome as well as the earliest of the long scarlet radishes. Flesh crisp and tender. Grows 6 to 7 inches long. A fine bright red variety to grow with Icicle.

Price per packet, 5 cts.; 1 oz., 15 cts.;
 $\frac{1}{4}$ lb., 50 cts.

3514

PLEASE ORDER SEEDS BY THE NUMBER ONLY

WINTER RADISHES

3520 White Chinese, or Celestial. Roots 6 to 8 inches long, thick, cylindrical, and smooth, with beautiful white skin and flesh. The whitest and least pungent of the winter Radishes.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.; lb., \$1.

3521 China Rose. The very best winter sort. Color bright deep rose. Four to 5 inches long, 2 inches thick. Flesh, white, crisp and pungent.

Price per packet. 5 cts.; 1 oz., 15 cts.; $\frac{1}{4}$ lb., 50 cts.

3090

PUMPKINS

3488 Connecticut Field. Generally planted among corn for stock-feeding. Produces large, orange colored Pumpkins with rich orange-yellow flesh. Good for pie.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.; lb., \$1.

3489 Cheese Pumpkin. The most popular variety for pies and other table uses. Fruits are large, flattened, round, creamy buff in color. Flesh a very deep yellow of finest quality.

Pkt., 5 cts.; oz., 20 cts.; $\frac{1}{4}$ lb., 70 cts.; lb., \$2.50.

3490 King of the Mammoths. The giant among Pumpkins. Specimens have grown to weigh 250 pounds, reaching 2 feet or more in diameter. Fruit round and flattened, slightly ribbed skin salmon-orange. Flesh bright yellow, very thick, and of fine quality.

Pkt., 10 cts.; oz., 20 cts.; $\frac{1}{4}$ lb., 70 cts.; lb., \$2.50.

SPINACH

3536 Thick-leaved. Leaves large and thick, bright green, and crumpled; high quality. A fine variety for Fall sowing to Winter over for Spring cutting.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 25 cts.; lb., 75 cts.

3537 Savoy-leaved. This is a very quick-growing variety; forming large fleshy leaves, deeply crumpled and of fine flavor. It must be used either in the Spring or in the Fall, as it will go to seed during the hot Summer months.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 25 cts.; lb., 75 cts.

3538 New Zealand. Entirely distinct from the true Spinach. The plants are spreading, with numerous side shoots. Leaves are medium green, small and pointed, but very thick and fleshy.

Pkt., 10 cts.; oz., 15 cts.; $\frac{1}{4}$ lb., 40 cts.; lb., \$1.50.

3544 King of Denmark. We have found this to be the very finest long seasoned Spinach. Will not bolt to seed. The leaves are large, round, very much crumpled. Color deep green. Plants of very vigorous growth.

Price per packet, 10 cts.; 1 oz., 25 cts.; $\frac{1}{4}$ lb., 75 cts.; 1 lb., \$2.75.

3473

PEPPERS

3472 Chinese Giant. This is one of the very largest of Peppers, averaging 12 to 15 inches in circumference. Nevertheless, they are early and prolific. The fruits are tender, mild and sweet, unexcelled for use as salad or for stuffing, for "mangoes."

Pkt., 10 cts.; $\frac{1}{2}$ oz., 45 cts.; oz., 80 cts.; $\frac{1}{4}$ lb., \$2.75.

3473 Large Bell, or Bull Nose. A very popular variety, unsurpassed as a pickling sort. The fruits, when young, are dark green, gradually changing to a bright red. The flesh is thick, tender, and of mild flavor.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 30 cts.; oz., 50 cts.; $\frac{1}{4}$ lb., \$1.75.

3474 Long Red Cayenne. Scarlet pods 4 inches long, $\frac{3}{4}$ of an inch in diameter. Hot and pungent. Much used for pickling, both green and ripe.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 30 cts.; oz., 50 cts.; $\frac{1}{4}$ lb., \$1.75.

3475 Ruby King. One of the most satisfactory varieties for the home. Plants are early and productive, bearing pendent fruits 4 to 6 inches long by 3 to 4 inches thick, tapering and of a bright ruby-red color. The flesh is thick, sweet, and mild. A favorite sort for salads, stuffing, etc.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 30 cts.; oz., 50 cts.; $\frac{1}{4}$ lb., \$1.75.

3476 Red Chili. Plants grow compact and bushy. 28 inches tall. The fruit is about 1½ inches long, cone-shaped, and bright red in color; very hot. Exceedingly prolific; generally used for making pepper sauce.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 30 cts.; oz., 50 cts.; $\frac{1}{4}$ lb., \$1.75.

SWISS CHARD

3543 Lucullus. An improvement on the old type. Stalks are as thick and broad as rhubarb, leaves light green, much crumpled and curled.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 30 cts.; lb., \$1.

SQUASHES

3548 Giant Summer Crookneck. The largest and one of the earliest Summer varieties. The fruits are often 2 feet long, very warted, and of a deep orange color. Quality excellent.

Pkt., 10 cts.; oz., 15 cts.; $\frac{1}{4}$ lb., 55 cts.; lb., \$2.

3549 Delicata. One of the best varieties for the home garden for both Summer and Winter use. Fruits are oblong, of a beautiful orange-yellow color, splashed and striped with dark green. The flesh is dry, of incomparable sweetness and delicious flavor. Excellent for all purposes, cooking or baking. A fine keeper.

Pkt., 10 cts.; oz., 20 cts.; $\frac{1}{4}$ lb., 60 cts.; lb., \$2.10.

3550 Improved Hubbard. An improvement of the old favorite and popular Hubbard Squash. It is of luxuriant growth and very productive; forms heavy fruits of a dark bluish-green color and with orange-yellow flesh of fine quality. An excellent keeper.

Pkt., 10 cts.; oz., 15 cts.; $\frac{1}{4}$ lb., 55 cts.; lb., \$2.

3551 Mammoth Bush Winter Scalloped. A favorite Summer Squash. Fruit scalloped and smooth, of a creamy white color. Flesh, thick and of the best quality.

Pkt., 10 cts.; oz., 15 cts.; $\frac{1}{4}$ lb., 50 cts.; lb., \$1.75.

3569

TOMATOES

3561 Earliana. The earliest and best of the very early Tomatoes. Very productive; bears fruits of large size, round, very smooth, solid, and of a bright scarlet color. Flesh meaty, firm, of excellent flavor.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 20 cts.; oz., 40 cts.; $\frac{1}{4}$ lb., \$1.25.

3559 Bonny Best. An exceptionally fine tomato of recent introduction. The fruits are of good size, smooth, solid and uniform. It is as early as the variety Earliana. It bears its fruits in clusters in the center of the plants. Color attractive bright red.

Price per packet, 5 cts.; $\frac{1}{2}$ oz., 25 cts.; 1 oz., 45 cts.; $\frac{1}{4}$ lb., \$1.60.

3560 John Bear. An early very productive red tomato of the highest grade. One of the favorite varieties.

Price per packet, 5 cts.; $\frac{1}{2}$ oz., 25 cts.; 1 oz., 45 cts.

3565 Ponderosa Red. Of all the varieties that have been offered, this one has become the most famous all over the United States. The plants are vigorous and prodigious bearers. The fruits are exceptionally large, solid and meaty, with little seed and of excellent flavor.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 30 cts.; oz., 50 cts.; $\frac{1}{4}$ lb., \$1.75.

3566 Golden Ponderosa. The best large golden yellow Tomato. Smooth in appearance; of excellent quality and enormous size.

ripens early. In shape very much like the Scarlet Ponderosa, but of a bright yellow color. Golden Ponderosa, served sliced and accompanied by a high-class scarlet variety similarly sliced, presents an appetizing combination difficult to resist.

Pkt., 10 cts.; $\frac{1}{2}$ oz., 35 cts.; oz., 60 cts.; $\frac{1}{4}$ lb., \$2.

3569 Tomato Wayahead (New).

A very early, smooth, solid, red variety which is bound to become one of the most popular of all tomatoes. It is one of the finest tomatoes ever offered and is worthy of general cultivation. Our stock of seed is unexcelled.

Price per packet, 25 cts.; $\frac{1}{2}$ oz., 60 cts.; 1 oz., \$1.10.

RHUBARB or PIE PLANT

3530 Linnaeus Giant. Early and very fine; leaves and stalks of immense size. Spring-sown seeds produce roots from which a crop may be taken the second year after sowing.

Pkt., 5 cts.; oz., 20 cts.; $\frac{1}{4}$ lb., 75 cts.

RUTABAGAS

3580 Improved American Purple-Top. A hardy, very productive variety with small neck. The roots are large, oblong, or globular in form. Color bright yellow with a purple top. Flesh very solid, tender, and sweet.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 25 cts.; lb., 75 cts.

PLEASE ORDER SEEDS BY THE NUMBER ONLY

TURNIPS

3575 Red-Top Strap-leaved. This is the best early variety for the home garden. Very productive. Roots are flat. Medium sized. The flesh is white, tender, and fine-grained.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 25 cts.; lb., 75 cts.

3576 Golden Ball, or Orange Jelly. The finest yellow late Turnip for family use. Sown in July, it will give a crop in the early Fall. The flesh is very sweet, firm, crisp, and of the finest quality. A fine variety for storage and use during the Winter.

Pkt., 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 25 cts.; lb., 75 cts.

3577 Early Snowball. Very early, medium size, perfectly round and pure white.

Price per packet, 5 cts.; oz., 10 cts.; $\frac{1}{4}$ lb., 35 cts.

HERB SEEDS

Culture. Sow early in Spring in shallow drills, 1 foot apart; when up a few inches, thin out or transplant. Should be cut on a dry day just before they come in full blossom, tied in bunches, hung up, or spread thin on a floor to dry. Those marked with an asterisk (*) are perennial.

3590 Anise. For garnishing and flavoring; also in making cordials. Pkt., 10 cts.; oz., 30 cts.

3591 *Balm. Lemon-scented; used in making Balm tea and wine. Pkt., 10 cts.; oz., 50 cts.

3592 Basil, Sweet. The stems and seeds are used in soups and sauces. Pkt. 10 cts.; oz., 60 cts.

3594 Borage. Excellent for bees. Pkt., 10 cts.; oz., 75 cts.

3595 Caraway. Used in bread, etc. Pkt., 10 cts.; oz., 30 cts.

3596 *Catnip. For medicinal purposes and relished by cats, which roll in it with great delight. Pkt., 10 cts.; oz., 75 cts.

3597 Coriander. Seeds are aromatic. Pkt., 10 cts.; oz., 25 cts.

3599 Dill. Used for making Dill pickles; seeds are used for seasoning. Pkt., 10 cts.; oz., 25 cts.; $\frac{1}{4}$ lb., 75 cts.

3600 *Fennel, Sweet. For salads, etc. Pkt., 10 cts.; oz., 25 cts.

3601 *Horehound. Has a bitter flavor; used in cough medicines. Pkt., 10 cts.; oz., 70 cts.

3602 *Lavender. For perfuming linen. Pkt., 10 cts.; oz., 70 cts.

3605 *Rosemary. Pkt., 10 cts.; oz., 70 cts.

3606 *Rue. For roup in fowls. Pkt., 10 cts.; oz., 70 cts.

3607 Saffron. Used for flavoring. Pkt., 10 cts.; oz., 30 cts.

3608 *Sage. French. Leaves used for seasoning meats, etc. Pkt., 25 cts.; oz., \$1.10.

3609 *Savory, Summer. Leaves and shoots are used for flavoring. Pkt., 10 cts.; oz., 40 cts.

3610 *Savory, Winter. Pkt., 10 cts.; oz., 50 cts.

3611 *Sweet Marjoram. Leaves used green in Summer and dried in Winter for flavoring. Pkt., 10 cts.; oz., 30 cts.; $\frac{1}{4}$ lb., \$1.

3613 *Thyme, Broad-leaved English. Pkt., 10 cts.; oz., 60 cts.

3615 *Wormwood. Used medicinally. Pkt., 10 cts.; oz., 80 cts.

FANCY GRASSES

3619 Kentucky Blue Grass. A splendid grass for lawns and pastures. Frequently used by the golfer in fairways and putting greens. Grows well in all soils. It is at its best in early Summer. Use 30 to 40 pounds per acre.

Price per pound, 50 cts.; 10 lbs., \$4.75; 100 lbs., \$45.

3620 Fancy Red-Top. A creeping grass of high quality. Excellent for lawns and to the golfer for fair greens and tees. Grows well in all soils and will even thrive on land too wet for cultivation. It is at its best in early Fall. Use 10 lbs. per acre.

Price per pound, 35 cts.; 10 lbs., \$3.25; 100 lbs., \$30.

3621 Timothy. A most important American grass for hay and pasture fields. Plants grow very vigorous with very broad leaves. Of easiest culture. At its best in mid-Summer. Use 20 to 30 lbs. per acre.

Price per pound, 25 cts.; 10 lbs., \$2; 100 lbs., \$18.

3622 English Rye Grass. A fine perennial grass for pastures and meadows. Makes a sweet-flavored excellent hay. Does best on moist soils.

Price per pound, 25 cts.; 10 lbs., \$2.25; 100 lbs., \$20.

3623 Fine-leaved Sheep's Fescue. A stiff grass of a deep green beautiful color. Does well on very dry light soil and gives fair results in shady places.

Price per pound, \$1.50; 10 lbs., \$14.00; 100 lbs., \$120.00.

3624 Bermuda Grass. A most excellent grass for the south. Unexcelled for lawns, putting greens, fairways, pastures and hay fields. Does well on sandy soils and grows freely during the hot and dry summers of the Gulf states.

Price per pound, 40 cts.; 10 lbs., \$3.75; 100 lbs., \$35.

3625 SPRINGDALE VELVET LAWN SEED

**A SUPERB QUALITY MIXTURE
PRACTICALLY 100 PER CENT
PURE.**

Composed of five different grasses which are at their best during different seasons of the year, and which are all high grade, fine leaved, dwarf grasses, used extensively in the making of putting-greens and fair-greens on several of the finest golf-courses in the country.

Our landscape department used this seed on extensive lawns on the finest private estates and has found that it produces a finer and hardier lawn than any other mixture.

We have sold immense quantities of this mixture to thousands of our customers in every state in the Union and in Canada, and we have received testimonials from everywhere commenting on its excellence.

This Lawn Seed Mixture is one of our own specialties, developed to its present state of perfection through practical experience of eminent landscape architects.

It is put up by ourselves from the finest quality grasses only. We believe it to be the best lawn seed mixture on the market and that it cannot be surpassed in quality at any price.

To bring this excellent mixture in reach of everybody we offer it at a price far less than the wholesale price of the grasses contained in it warrants.

Sow 1 lb. per plot of 15 by 20 feet. 125 lbs. per acre.
3625 Price per 1 lb., 50 cts.; 5 lbs., \$2.25; 10 lbs., \$4.25; 100 lbs., \$38.00.

3626 Springdale Shady Lawn Seed. This is a combination of fine-leaved evergreen varieties of grasses, which in their natural state are found growing in the woods. It will produce a dark green velvety turf in shady places.

Lb., 60 cts.; 5 lbs., \$2.75; 10 lbs., \$5; 100 lbs., \$42.

3627 Elliott's Sunny South Lawn Grass Seed. This mixture, especially prepared for the South, contains grasses that by nature are adapted to hot, dry situations. Bermuda Grass, which is frequently used in the South remains green only during the Summer months, turning brown in Winter. Our mixture, however, will produce a lawn which will stay green all the year round.

Lb., 70 cts.; 5 lbs., \$3.25; 10 lbs., \$6; 100 lbs., \$55.

3628 Elliott's Springdale Terrace Seed. This mixture is best suited for sowing on terraces, embankments, and hillsides. It is composed of grasses which will stand drought and exposure, thriving in shallow soil. The roots are long and spreading and will prevent soil from sliding and washing out during heavy rains.

Lb., 60 cts.; 5 lbs., \$2.75; 10 lbs., \$5; 100 lbs., \$45.

3629 Elliott's Golf Course Grass Seed Mixture. For fair-greens and putting-greens, laying down new courses, and renovating old ones. These mixtures are chiefly made up of American-grown grasses best suited for the purpose intended.

Lb., 75 cts.; 5 lbs., \$3.25; 10 lbs., \$6; 100 lbs., \$55.

3630 Tough Turf Grass Seed Mixture. A blending especially recommended for tennis courts, croquet grounds, bowling greens, etc.

Lb., 60 cts.; 5 lbs., \$2.60; 10 lbs., \$4.75; 100 lbs., \$42.

3631 White Clover for Lawns. Sow 8 lbs. per acre when sown alone, 4 lbs. with other grasses.

Lb., 80 cts.; 10 lbs., \$7.50; 100 lbs., \$70.
